Bring Sustainability to Your Neighborhood!

Make a difference in your neighborhood

The Sustainable Neighborhood Solutions Program (SNS) provides funding, resources, and training to facilitate neighborhood-scale sustainability and resilience through community group empowerment.

Open to: Active NGLA communities and COVID-19 response communities

Funding dependent on project type

Project categories

Improve your neighborhood's sustainability in one of the following categories

Workshops

Activities

Programs and Resources

Improvements

Ideas to get you started!

WORKSHOPS

Pollinator Workshop

Host a neighborhood workshop on the value of pollinators to humans and the food chain followed by a community discussion of neighborhood impact and opportunities.

Other Ideas:

Workshops on the value of reducing home energy use, using rain barrels, or composting.

ACTIVITIES

Senior Xeriscape Support

Assist seniors in the community that are unable to care for their yards to convert them into low maintenance xeriscapes.

Other Ideas:

Team installs LED bulbs in neighbor homes, set up rain barrels for seniors, how to compost instruction.

PROGRAMS AND RESOURCES

Home Pollinator Garden Guide

Create a guide for homeowners to create personal pollinator gardens in their yards.

Other Ideas:

Map solar potential locations, guide to rain barrels, establish shared composting program.

IMPROVEMENTS

Create a Community Pollinator Garden

Construct a pollinator garden for everyone to enjoy.

Other Ideas:

Install solar panels in a community space, place rain barrels in a community garden, build composting infrastructure for seniors.
