City of Longmont, Colorado

TABLE OF CONTENTS

Year Ended December 31, 2019

STATISTICAL SCHEDULES (Continued)

June 16, 2020

Honorable Mayor, Members of the City Council, and Citizens of the City of Longmont:

The Comprehensive Annual Financial Report (CAFR) of the City of Longmont for fiscal year ended December 31, 2019, is hereby submitted in accordance with Colorado statutes and City Charter provisions.

Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the City's Finance Department. The reported data is accurate in all material respects and is presented in a manner designed to fairly set forth the financial position and the results of operations of the City on a Citywide and Fund basis. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

Generally accepted accounting principles (GAAP) require that management provide an introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is intended to complement the MD&A, found immediately following the report of the City's independent auditors, and should be read in conjunction therewith. State statutes and the City Charter require an annual audit by independent certified public accountants to provide reasonable assurance that the information in the CAFR can be relied upon. The report of the City's auditors, Plante & Moran, PLLC, is included in the financial section of the report.

Profile of the City and Services

Longmont is 35 miles north of Denver, comprising 30-plus square miles in the highly desirable northern Front Range area. Incorporated in 1873 and chartered as a home rule city in 1961, Longmont is a full-service, council-manager-governed municipality providing the following services to its 97,530 residents: public safety, highways and streets, culture and recreation, public improvements, planning and zoning, and general administrative services as well as sanitation, electric, broadband, storm drainage, water and sewer utilities, and golf and airport enterprises. The City also is financially accountable for the Downtown Development Authority, which is reported separately in these financial statements, further explained in Note 1 of the financial statements section.

Factors Affecting Financial Condition

September 2013 Flood. In September of 2013, the Colorado Front Range experienced catastrophic flooding. The St. Vrain and Left Hand creeks flow through Longmont and were impacted by the 1,000-year rainfall event. Flows on both rivers exceeded 500-year flood levels and caused significant damage to City infrastructure and private property. The President issued a major disaster declaration following state and local declarations due to the overwhelming nature of the damage. Local City response efforts included over 12,000 evacuation notices; hundreds of rescues; maintaining a shelter for 10 days; and clearing debris from homes, roadways and waterways while the City was effectively cut in half. The damage estimates topped \$50 million for City infrastructure. The City secured more than \$120 million in federal and state grants for repairs to infrastructure and to support housing efforts. Additionally, the City issued \$20 million in storm drainage bonds for repairs and improvements to the St. Vrain Creek drainageway. The City is working closely with state and federal agencies during recovery and is aggressively pursuing additional sources of funding. In 2019, the City budgeted \$11.1 million for flood recovery efforts, \$5.6 million was spent, and \$7.9 million was received from federal and state grants.

Local Economy. The City's economic picture showed slight growth in 2019 with an increase in total sales and use tax and an increase in primary jobs compared to 2018. The area unemployment rate was reported at 2.3% in December 2019, as compared to 2.9% in December 2018.

During 2019, sales and use tax activity increased 1.65% from 2018 with sales tax up 3.93% and use tax down 8.14%. Much of the use tax decline was due to reduced building permit valuations as 2018 was a peak year. Additionally, 357 building permits were issued for single-family residences, and 123 permits were issued for multifamily units. The City also issued nonresidential permits for a total of 301,299 square feet with a value of \$44.9 million. In 2020, new construction permits for 90 single-family homes, 23 multifamily units, and 9 commercial/industrial properties have been issued through April.

The Longmont Economic Development Partnership (LEDP) 2019 Annual Report reveals a net increase of 0.7%, or 401, primary jobs during 2019. Longmont's primary employers represent a mixture of industries. Data from the LEDP report indicate that computer-related industries are the largest primary employers in the Longmont area. Other significant industries include software, semiconductors, aerospace, biotech, energy, communications, and medical instruments.

Longmont is a desirable location and has a well-balanced, diversified economic base. The guiding principles and growth-related goals set forth in the Envision Longmont Multimodal & Comprehensive Plan support growth and development that allow Longmont to become a sustainable community over the long term – one that balances economic, environmental and community needs.

In 2020, Longmont, along with the rest of the country as well as the world, is dealing with the COVID-19 pandemic. The virus has caused a partial shutdown of the local economy. While City sales and use tax is up 2.7% through March, staff projects that there could be significant revenue shortfalls in 2020. The City is preparing to deal with the shortfalls through a combination of reserves and expenditure savings.

Major City Initiatives. The City continues its efforts to improve the quality of life and long-term financial interests of the community. Significant accomplishments during 2019 include:

- Adopted the Sustainability Evaluation System (SES) to be applied to development projects
- Began reorganization to improve operations and alignment with City priorities and to establish a structure that supports
 future growth. Hired two new executive directors to lead the electric and broadband services in LPC.
- The special tax generated by marijuana sales was \$294,948 in 2019. That revenue goes into the Special Retail Marijuana Tax
 Fund with half earmarked toward affordable housing.
- Completed the Building STEAM visualization process for the St. Vrain River Corridor.
- Conducted race equity training for staff and created a steering committee.
- Refreshed the rebate program, added a sales tax rebate, and launched the Longmont CARES simplified one-stop application process.
- Was awarded \$1.2 million by Governor Jared Polis for the Resilient St. Vrain flood recovery, river corridor, and greenway reconstruction project. Total awards are now at \$13.1 million.
- Spent \$44 million on capital improvement projects across the city.
- Staff completed 10 listening sessions and four workshops and received 562 completed surveys regarding the goal of 100% renewable energy by 2030.
- Purchased and installed 72 new mobile data computers in all City police vehicles at a cost of \$198,780.
- Received \$34.7 million total in recovery reimbursements to date maintained by Flood Recovery Team.
- Completed asphalt rehabilitation for 19.6 lane miles, and 19.6 lane miles were completed for pavement preservation.
- Certified 21 businesses as Sustainable Businesses through the City's program. The SBP assisted 29 additional businesses.
- Acquired 402 acres of land including the Double 6 Ranch property (71 acres), the Tull property (216 acres) and the Distel-Camas property (115 acres).
- Logged more than 2,500 service hours from 629 volunteers through the JoinUs online volunteer portal for a total estimated \$65,000 of contributed time.
- Installed 2,200 feet of 30-inch water lines for the Clover Basin water transmission line.
- Replaced 5,200 feet of 24-inch raw water line for the North St. Vrain pipeline.
- Replaced 8,500 feet of 6- to 12-inch water lines during the Water Distribution Rehabilitation Project.
- Diverted 31,360 pounds of household hazardous waste the landfill during the annual event.
- Completed construction of the Biogas Treatment and Renewable Natural Gas project, with testing and start-up of the
 equipment scheduled for January 2020. The project turns biogas generated at the Wastewater Treatment Plant into renewable
 natural gas fuel used to power trash collection trucks.
- Installed two new regional air quality monitoring stations, one at Vance Brand Airport and one at Union Reservoir.
- Longmont City Council passed a resolution in October declaring a climate emergency. In early December, City Council
 approved creation of a Climate Action Task Force, which met for the first time on December 18.
- Completed and adopted an updated Wildlife Management Plan.
- Generated strong public engagement in year one of the two-year Button Rock Management Plan update.
- Began integrating a robot into snow removal and mowing operations at several City parks. Longmont is the first city in Colorado to use robots for mowing operations.
- Wetland sod was the first obvious vegetation planted in the Resilient St. Vrain Project's (RSVP) City Reach 2A in 2019. The
 sod was an immediate success, creating almost instant established vegetation and restored habitat along St. Vrain Creek.
- The Windy Gap Firming Project reached another milestone this year as construction bids were let and an administrative contract for construction was awarded. The Colorado River Connectivity Channel, a related project, began with an award of that design contract.

- In November, voters approved making the 3/4-cent Street Improvement Fund sales and use tax a permanent tax. Dollars
 generated from this tax fund a variety of City transportation services, programs and improvements. These dollars are also
 used to meet local match requirements for outside agency grants. The tax had previously been extended in 5- or 10-year
 increments since its inception in 1986.
- PWNR Business Services performed a cost-of-service analysis for the water utility and recommended a five-year rate schedule, approved by City Council, to support ongoing utility operations and maintenance.
- Work on Quiet Zones began with the design of needed improvements for 16 rail crossings that are currently at 90% plan
 completion. City Council approved funding construction for two years, and staff applied for a Consolidated Rail Infrastructure
 and Safety Improvement (CRISI) grant to assist in funding the project. Grant recipients will be notified in the first quarter
 of 2020.
- The Resilient St. Vrain Project (RSVP) continues to make improvements along St. Vrain Creek to restore the St. Vrain Greenway trail and protect people, property and infrastructure by reducing flood risk throughout the city.
- City Reach 2A (from Main Street to S. Pratt Parkway/Colorado Avenue) is nearing the end of construction, with completion scheduled for early 2020.
- Completed the Bonus Ditch Pump Station and the Peck Ditch Augmentation Station.
- Completed several capital improvement projects, including phase one of the Civic Center rehabilitation and numerous water and wastewater projects.
- Installed a 40 MVA transformer at the County Line Substation to increase capacity and redundancy across the entire system.
- LPC created and implemented a Spanish queue to better assist with incoming phone calls.
- Completed an electric cost of service study and recommendations, including seasonal rates, which were approved for implementation in 2020 and 2021.
- Installed Automatic Vehicle Locating in 45 of LPC's vehicles. This tracking system enhances LPC's GIS and outage management software and provides additional operational awareness.
- NextLight increased customers to over 20,300 with annual revenue of \$15 million.
- Began "Sharing the NextLight" program for low-income families with school-age children and initiated options to donate to the program through the monthly NextLight bill.
- NextLight added 30 miles of new plant.
- Added 19 capital vehicles to the fleet at a total cost of \$615,495.
- Replaced 57 vehicles for a total cost of \$3,092,205.
- Purchased 11 new renewable natural gas sanitation trucks for \$4,022,758.
- Received \$831,000 from three vehicle auctions at which 148 lots were sold
- Sold \$28,620,000 in sales and use tax revenue bonds to finance rehabilitation or replacement of City facilities.
- · Communications launched a new City brand.
- Launched Engage Longmont online community involvement system
- Constructed new entryway sign on Hwy. 119.
- Conducted public engagement process and RFP that led to the selection of Longmont Public Media as the new public access communication provider.
- Conducted a general election.
- Requested closeout on 31 of 34 FEMA Project Worksheets for the 2013 floods.
- Closed all 2015 flood FEMA Project Worksheets.
- Received FEMA final closeout documentation on 12 Project Worksheets.
- Longmont's disaster recovery process received state and national attention for being successful, innovative, and complete.
- Prepared and adopted the 2020 Operating Budget and the 2020-2024 Capital Improvement Program and received the GFOA
 Distinguished Budget Presentation Award for the 2019 Budget.
- Prepared the 2018 Comprehensive Annual Financial Report, which received the GFOA Certificate of Achievement Award.
- Added 110 benefited new hires and maintained a 10.5% turnover.
- Created an active recruitment strategy, including diversity, military, and college and university outreach.

- Onboarded and trained new HR partner and restructured HR partner functions.
- Code Enforcement reviewed and approved 105 permanent sign plans.
- The Development Review Committee completed 230 reviews.
- Issued 7,021 permits, including 2,552 issued online and 4,469 issued in office.
- Awarded 67 grants to neighborhood, including 10 neighborhood improvement grants, 38 neighborhood activity grants, and
 19 Discover Neighborhood grants.
- Allocated or put under contract 97% of CDBG-DR funding. Partners have been reimbursed 64.5% of total funding with \$27.8M to spend. There are 41 projects underway or beginning; 18 were completed in 2019.
- Helped 449 families/individuals through housing retention efforts; mediated landlord/tenant issues that helped 300 families/individuals; facilitated eviction court mediations that assisted 74 families/individuals; helped 40 families retain their housing through the Home Steady program; assisted 35 older adults in securing stable, affordable housing.
- Engaged 520+ Latinx youth and adults in Supporting Action for Mental Health activities that fostered community connection, advocated mental health equity and empowered action toward healing.
- Allocated \$1.2 million to affordable housing funds, leveraging \$49.7 million in other funding to provide 79 new and preserve 132 existing affordable homes.
- Achieved milestones to position the Longmont Museum to qualify for Tier II funding from the Scientific and Cultural Facilities
 District (SCFD). This will potentially result in a 600% increase in SCFD revenue for Museum operations in late 2020.
- Increased Museum admission, gift shop sales, summer camp and rental revenue; increased memberships by 40%; and increased revenue from grants and private donations by 33%.
- The Longmont Senior Center saw a significant increase in caregivers seeking education and supportive services; responding
 to caregivers is now the top issue addressed by supportive services staff.
- Saw a 67% decrease in the city's overall crime rate.
- Saved 53% of those with cardiac emergencies.
- Named the Number 1 Boomtown in America by the Smart Asset Study
- Named a Top 10 Digital City in America by the Center for Digital Government Money Best Places to Live in America 2019.
- Received the National Procurement Institute Achievement of Excellence in Procurement Award for the second time, one of only four Colorado public agencies to earn the award
- Received the National Institute of Governmental Purchasing Sterling Award for fully certified professional staff.
- Received the Rocky Mountain Governmental Purchasing Association Procurement Team of the Year Award and Innovation Award.
- Named "Smart Energy Provider" by the American Public Power Association.
- PC Magazine named NextLight the fastest ISP and, second fastest for gaming in the Northwest region, and the third fastest
 in the nation.

City Council Vision and Work Plan. In May 2018, the City Council met in its annual retreat to establish a vision, goals and work plan. Their vision for Longmont is:

- Vision for Longmont's people In 20 years, Longmont will be the world's greatest village, where children are most fortunate
 to be born and raised, where people will have access to food and shelter, and where everyone has the opportunity to thrive
 and feel that they belong.
- Vision for Longmont's places In 20 years, Longmont will have a developed Main Street from Pike Road to Highway 66 and
 a river corridor that stretches from the sugar mill to the fairgrounds providing a vibrant economic, residential, cultural and
 entertainment epicenter that is sustainable and respects the natural environment.

In addition to the City Council vision, in 2016 the City Council adopted Envision Longmont, a multimodal and comprehensive plan that provides strategic direction and guidance for Longmont over a period of 10 to 20 years. Both the priority based budgeting process and the Envision Longmont process include community input toward goals and priorities. Envision Longmont includes six guiding principles that reflect key elements of the community's desired future. These guiding principles provide focus in terms of where efforts and resources should be directed over 10 to 20 years to ensure that Longmont remains a livable, prosperous and attractive community. The guiding principles are:

Livable Centers, Corridors, and Neighborhoods

- Embrace a compact and efficient pattern of growth.
- Promote a sustainable mix of land uses.
- Maintain and enhance the character of established neighborhoods.
- Focus infill and redevelopment in centers, corridors, and other areas of change.
- Support the continued revitalization of Downtown as a community and regional destination.
- Provide, maintain, and enhance public infrastructure, facilities, and services to meet the changing needs of the community.
- Reinforce Longmont's unique identity and sense of community.
- Create an integrated and quality parks, recreation, greenway, and open space system.

A Complete, Balanced, and Connected Transportation System

- Integrate land use and transportation planning to enhance the overall quality of life in the City.
- Provide a transportation system that offers safe, healthy, and reliable mobility for people of all ages, income levels, and abilities.
- Enhance the transportation system in a manner that improves the economic vitality of the city, while being responsible stewards of limited resources.

Housing, Services, Amenities, and Opportunities for All

- Ensure there are affordable and accessible housing options that meet the needs of residents of all ages, abilities, and income levels.
- Provide residents in all parts of the city with access to a range of community amenities, including parks, open spaces and recreational opportunities.
- Ensure social, health, and human services are accessible to and contribute to the well-being of all residents.
- Ensure all Longmont residents have access to arts, cultural, and learning opportunities they need to thrive and prosper.
- Protect civil liberties and ensure that all residents have equitable access to resources and opportunities to participate in the community and enjoy life.
- Recognize and celebrate the cultural diversity of Longmont's residents.

A Safe, Healthy, and Adaptable Community

- Support healthy and active lifestyles among residents of all ages.
- Support increased access to affordable, healthy food.
- Ensure residents have access to health and human services.
- Partner with our community to ensure the best level of proactive, reactive and coactive public safety services are available.
- Minimize risks to property, infrastructure, and lives due to natural disasters and other natural or manmade hazards.

Responsible Stewardship of Our Resources

- Protect and conserve Longmont's natural resources and environment.
- Maintain a quality renewable water supply to meet the long-term needs of the community.
- Preserve Longmont's historic and cultural resources.
- Preserve Longmont's agricultural resources.
- Recognize and enhance the ecological functions of the City's system of parks, open space, greenways, waterways, and urban forest.
- Strive to be as efficient and effective as possible as a City organization.

Job Growth and Economic Vitality through Innovation and Collaboration

- Recruit, support, incentivize, and retain quality businesses to provide a comprehensive range of job opportunities and promote
 economic diversity.
- Promote and increase opportunities for collaboration, innovation, and entrepreneurism
- Address building space, infrastructure needs, and other considerations of target industries and the workforce.
- Foster an educated and skilled workforce that meets the needs of local businesses and increases economic opportunities for residents.

- Ensure Longmont is a desirable place to live, work, play, learn, and start a business.
- Maintain a safe and efficient airport to meet the city's needs for commerce and recreation aviation.

Responsible Internal Operations and Governance

- Deliver responsive, timely, efficient operations that support City services.
- Provide assurance of compliance with regulations, mandates, policies and best practices.
- Maintain clear, ethical, inclusive, accountable, transparent leadership and collaboration.
- Protect, invest in and value the City's human, physical and technological resources.
- Implement sound fiscal policies and enable trust and transparency by ensuring accountability, efficiency, integrity, and best
 practices in all operations.

Capital Improvement Program. A comprehensive five-year capital improvement program (CIP) is prepared each year. The CIP provides the opportunity to:

- Coordinate projects within the City and with outside agencies
- Explore and use alternative funding mechanisms
- Link capital expenditures to adopted plans and policies
- Assess the impact of capital improvements on the City's operating budget
- Increase the involvement of the general public in planning the City's infrastructure
- Increase the community's awareness of the City's capital needs and capabilities

Most projects are funded from business-type activities. Other major projects are in the Streets Fund, Transportation Community Investment Fee Fund, Park Improvement Fund and Public Improvement Fund. The five-year CIP includes funded projects, partially funded projects and unfunded projects. A summary of the five-year plan for 2020-2024 is shown below. The projects detailed are funded primarily through business-type activity revenues, through sales and use tax revenues of the Street and Public Improvement governmental funds, and through growth-related community investment fees. Additionally, there are approximately 65 projects identified as unfunded with an estimated cost of \$502 million, some of which may never be realized as they are new services or enhanced services dependent upon new sources of revenue.

Category	Number Of Projects	Amount Funded
Broadband	5	\$ 12,725,137
Downtown Redevelopment	3	\$ 335,000
Drainage	3	\$ 2,319,285
Electric	7	\$ 16,617,000
Parks and Recreation	21	\$ 38,346,414
Public Buildings & Facilities	26	\$ 25,616,099
Sanitation	1	\$ 1,464,500
Sewer	4	\$ 30,315,000
Transportation	16	\$ 62,396,723
Water	14	\$ 52,797,897

Financial Policies. Since 1985 the City has maintained comprehensive financial policies developed to provide the City with continuity of financial management through changes in financial staff and City Council. The policies are reviewed and updated annually by City Council. There are currently 99 policies organized in the following eight categories:

- 1. Revenue (13)
- 2. Operating (24)
- 3. Fees for Service (6)
- 4. Investment and Debt (11)
- 5. Reserves (9)
- 6. Administrative and Franchise Fees (7)
- 7. Enterprise Funds (15)
- 8. Capital improvement (14)

Financial Management and Internal Controls

The City's framework of internal controls provides management with the reasonable assurance it needs to take meaningful responsibility for the contents of the financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits and that the evaluation thereof requires managerial judgment. The City's basic system of internal controls includes a control environment, the accounting system, and control procedures.

The foundation of the City's financial planning and control is the annual budget. To ensure compliance with legal budgetary controls, the City Council and management receive periodic reports comparing budgeted amounts to actual expenditures. The level at which expenditures cannot exceed appropriations (legal level of budgetary control) is the fund level. The City Council may make additional appropriations during the fiscal year for unanticipated revenues or projects that were not completed in the prior year. Budget-to-actual comparisons by fund are provided in the fund subsection of this report for all funds requiring an appropriated annual budget and are summarized in the notes to the financial statements. The Public Improvement Fund is reported with project-length budget-to-actual comparisons as the only fund for which appropriations do not lapse at year end.

Cash management met full compliance with Colorado statutes and the City's investment policy, which was last updated by the City Council in 2018. All funds are invested using a "pooled assets" investment fund, focusing on the investment objectives of safety, liquidity and yield. The majority of temporary investments made by the City in 2019 were in government agencies and securities. The fair value return on the investment portfolio during the year was 1.4956%.

Colorado law grants governmental immunity to all governments, limiting the loss on any one general or automobile claim for negligence to \$350,000 per person and \$990,000 per occurrence. Beginning January 1, 2018, and every four years thereafter, the attorney general (AG) is required to adjust the caps based on the Consumer Price Index for Denver-Boulder-Greeley. The adjusted amounts are to be published on the AG's website. Longmont retains risk of \$300,000 per claim and purchases excess insurance with limits of \$1 million for general and auto liability claims not covered by governmental immunity. The City retains risk for workers' compensation up to a limit of \$500,000 per general worker claim, \$600,000 per firefighter and police officer claim, and \$600,000 per electrical worker claim and carries excess insurance beyond those limits. The City retains risk of \$25,000 for property losses and carries insurance of up to \$75 million for any one property loss occurrence except for \$100,000 retention for general flood and earthquake and \$500,000 retention for zone A flood losses. The City's risk management staff (4¾ full-time positions) includes a Safety Officer for the purpose of loss control and prevention.

All benefitted City employees are covered by one or more of four pension plans. All sworn uniformed employees are covered by the Fire and Police Money Purchase Plans, two separate defined contribution plans. The City maintains two closed defined benefit plans, the Fire Pension Plan and the Police Pension Plan, each with 10 or fewer retirees or beneficiaries but no active participants at December 31, 2019. All other eligible City employees are covered by both a defined contribution plan and a defined benefit plan. Actuarial studies on the Fire Pension Plan, the Police Pension Plan and the Employee Pension Plan are performed annually with the last study for each plan performed as of January 1, 2019. Actuarial information regarding the plans is included in the notes to the financial statements.

The City of Longmont does not provide postretirement health or dental care benefits for any retirees. Retirees may participate in the City's fully insured health plan at a blended rate until eligible for Medicare. The implicit subsidy in that blended rate has been actuarially measured and reported in the Citywide and Enterprise Fund statements.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Longmont, Colorado, for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2018. The City has been awarded a Certificate of Achievement for 38 consecutive CAFRs. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR conforming to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for one year. We believe our current CAFR continues to meet the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

In addition, the City also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the fiscal year beginning January 1, 2019. To qualify for the Distinguished Budget Presentation Award, the City's budget document had to be judged proficient as a policy document, a financial plan, an operations guide, and a communications device.

A Certificate of Achievement is the highest form of recognition in the area of governmental financial reporting, and its attainment represents a significant accomplishment by a governmental unit. The preparation of this report on a timely basis could not have been accomplished without the effective and dedicated services of Accounting Manager DeeAnn Hanson; Lead Accountants Suzie McGinley and Sammi Coleson; Accountants Kim Klug, Karlyn Gonzales, and Haley Burrack; and the entire staff of the Finance Department. Credit is also due the Mayor and the members of City Council for their support for maintaining the highest standards of professionalism in the management of the City of Longmont's finances.

Respectfully Submitted,

Harold Dominguez

Independent Auditor's Report

To the Honorable Mayor and Members of the City Council City of Longmont, Colorado

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Longmont, Colorado (the "City") as of and for the year ended December 31, 2019 and the related notes to the financial statements, which collectively comprise City of Longmont, Colorado's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Longmont, Colorado as of December 31, 2019 and the respective changes in its financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund and Streets Systems Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Honorable Mayor and Members of the City Council City of Longmont, Colorado

Emphasis of Matter

As discussed in Note 24 to the basic financial statements, the 2018 basic financial statements have been restated, which resulted in an increase in the net position of the Employee Benefits Fund and governmental activities. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplemental information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Longmont, Colorado's basic financial statements. The other supplemental information, combining and individual nonmajor fund, major enterprise fund, internal service fund, fiduciary fund and component unit schedules, Local Highway Finance Report, and introductory and statistical sections are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is also presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The other supplemental information (except for the Public Improvement Fund project-length schedule of construction projects), combining and individual nonmajor fund, major enterprise fund, internal service fund, fiduciary fund and component unit schedules, Local Highway Finance Report, and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information (except for the Public Improvement Fund project-length schedule of construction projects), combining and individual nonmajor fund, major enterprise fund, internal service fund, fiduciary fund and component unit schedules, Local Highway Finance Report, and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections and the Public Improvement Fund project-length schedule of construction projects have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

To the Honorable Mayor and Members of the City Council City of Longmont, Colorado

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 29, 2020 on our consideration of City of Longmont, Colorado's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Longmont, Colorado's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Year Ended December 31, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Longmont's (the City) financial statements as of and for the year ended December 31, 2019, provides a narrative overview of its financial activities. Please consider the information presented here in conjunction with additional information we have furnished in our letter of transmittal, which starts on page 13 of this report.

Financial Highlights

- The City's net position of \$1.242 billion is divided between Governmental Activities (\$508 million) and Business-type Activities (\$734 million). Governmental activities showed an increase in net position of \$27 million, which was in part due to an increase in sales and use taxes of \$1.5 million and other revenue of \$2.6 million. The remaining \$22.9 increase is the result of reducing expenses in Streets and Highways and Municipal Utilities of \$8.8 million. Business type activities showed an increase in net position of \$26 million due to an increase in grants and contributions of \$5.2 million and an increase in charges for services of \$3.6 million. The remaining \$17.2 million is the result of a reduction in expenses.
- As of December 31, 2019, the City of Longmont's governmental funds balance sheet reported combined ending fund balances of \$190 million, a \$36.7 million increase from the prior year. This statement combines 39 funds, including the City's General Fund, Public Improvement Fund and Streets Systems Fund. The Park Improvement Fund, Water System Construction Reserve Fund, Sewer Construction fund, Open Space Fund, and Public Safety fund showed an increase in fund balances in excess of \$1.9 million.
- A total of \$162.5 million, or 86%, of the \$190 million fund balance within the governmental funds is restricted for specific purposes as required by external parties. Specifically, \$122.1 million of this \$162.5 million balance represents reserves built up for capital acquisitions or construction as follows: Water System Projects, \$40 million; Sewer Projects, \$10.1 million; Open Space projects, \$3.4 million; Public Improvement Fund capital projects, \$33 million; Conservation Trust capital projects, \$6 million; Electric projects, \$4.8 million; Public Buildings, \$3.2 million; and Parks capital projects, \$21.4 million. Additionally, \$4.9 million has been identified for emergencies.
- The unassigned fund balance for the General Fund at the end of the current fiscal year was \$12.4 million, which was 14.94%
 of total General Fund expenditures.
- The City of Longmont's total debt increased by \$42.9 million during 2019.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Longmont's basic financial statements. The City's basic financial statements have three components: 1) citywide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

City-wide Financial Statements. The citywide financial statements are intended to provide readers with a broad overview of the City of Longmont's financial position in a manner similar to private-sector business. The *statement of net position* is essentially a balance sheet that combines all funds on a citywide basis. Changes in net position over time may be an indicator of whether the City's financial position is improving or worsening.

The statement of activities combines all funds on a citywide basis for income statement presentation. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows only in future years (e.g., uncollected taxes and earned but unused vacation leave.)

Both of these citywide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all costs or a significant portion thereof through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, highways and streets, culture and recreation, and Municipal utility systems. The business-type activities of the City include sanitation, golf, electric/broadband, water, sewer, storm drainage, and airport operations.

The City-wide financial statements include not only the City of Longmont itself (the primary government), but also the legally separate Downtown Development Authority (component unit) for which the City is financially accountable. Financial information for the component unit is reported separately from the financial information of the City. The General Improvement District, although also legally separate, functions for all practical purposes as a department of the City, and is therefore included as an integral part of the primary government.

The City-wide financial statements are Exhibits 1 and 2 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Longmont uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the City's funds can be divided into three categories: governmental, proprietary and fiduciary.

Management's Discussion and Analysis

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the City-wide financial statements. However, unlike the citywide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Financial information based on spendable resources is useful in evaluating the City's short-term financing requirements.

Because the focus of governmental funds is narrower than that of the citywide financial statements, it may be useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the citywide statements. Readers may then better understand the long-term impact of the City's short-term financing decisions. Both the governmental fund balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate a comparison between *governmental funds* and *governmental activities*.

The City maintains 39 individual governmental funds. Information is presented separately in the governmental balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the General Fund, the Streets Systems Fund, and the Public Improvement Fund, which meet the criteria to be considered major funds of the City under generally accepted accounting principles (GAAP). Financial information from the other 36 funds is combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and individual fund statements elsewhere in this report. The basic governmental fund financial statements are Exhibits 3 through 8 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented in the business-type activities in the citywide financial statements. The City uses enterprise funds to account for its sanitation, golf, electric/broadband, water, sewer, storm drainage, and airport operations. Internal service funds are used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its warehouse, fleet and utility billing CIS operations, as well as its risk-retention functions including liability, employee benefit, workers compensation, and unemployment. Because these internal services predominantly benefit governmental rather than business-type activities, they are included within the governmental activities in the citywide financial statements.

Proprietary funds provide the same type of information as the citywide financial statements in more detail. The proprietary fund financial statements provide separate information for the electric/broadband, water, sewer, and storm drainage operations, all of which meet the criteria to be considered major funds of the City under GAAP. Financial information from four other proprietary funds is combined into a single, aggregated presentation, with individual fund data presented in a later section. Additionally, all internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties external to the City. Fiduciary funds are **not** reflected in the citywide financial statement because the resources of those funds are **not** available to support the City of Longmont's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary funds financial statements can be found on pages 64 and 65 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the citywide and fund financial statements. The notes to the financial statements can be found beginning on page 66 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Longmont's progress in funding its obligations to provide pension benefits and other post-employment benefits to its employees. Required supplementary information can be found on the pages immediately following the notes.

The combining and individual fund statements earlier referenced in connection with non-major funds and internal service funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 127 - 213 of this report.

Management's Discussion and Analysis

Year Ended December 31, 2019

REPORTING THE CITY AS A WHOLE

City-wide Financial Analysis

City-wide Statement of Net Position

As highlighted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's combined net position is \$1.242 billion at December 31, 2019. Governmental activities make up \$508 million of the net position, with business-type activities comprising \$734 million. Total net position increased by \$53.04 million in 2019. The change is comprised of the following:

- Governmental activities increased the City's net position by \$27 million for 2019. This was due to an increase in sales and
 use taxes of \$1.5 million and other revenue of \$2.6 million. The remaining \$22.9 increase is the result of reducing expenses
 in Streets and Highways and Municipal Utilities of \$8.8 million.
- Business-type net position increased by \$\$26 million in 2019 due to an increase in grants and contributions of \$5.2 million and an increase in charges for services of \$3.6 million. The remaining \$17.2 million is the result of a reduction in expenses.

The largest portion of the City's net position reflects its investments in capital assets (e.g., land, utility systems, buildings, machinery, and equipment), less any outstanding debt used to acquire those assets. These assets are used to provide services to citizens and thus are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it is important to note that the resources needed for debt repayment must be provided from other sources, since the capital assets themselves cannot be used to liquidate liabilities.

Unrestricted net position as shown below, is the portion of net position that can be used to finance day-to-day operations without external constraints of debt covenants, legislation or other legal requirements. It consists of fund balances, reserves and other funds which are earmarked for capital project spending.

The Citywide Statement of Activities

Net Position as of December 31,2019

		Governmental activities				Busines-type activities				Total			
		2019 2018			2019 2018			2019			2018		
Current and other assets	\$	286,037,915	\$	236,590,987	\$	103,804,614	\$	103,983,773	\$	389,842,529	\$	340,574,760	
Capital assets		382,012,615		364,231,278		766,229,383		746,922,742		1,148,241,998		1,111,154,020	
Total assets		668,050,530		600,822,265		870,033,997		850,906,515		1,538,084,527		1,451,728,780

assets		351,569,726		331,125,256		656,472,012		634,873,565		1,008,041,738		965,998,821	
Restricted		133,402,783		129,633,890		2,978,937		1,292,028		136,381,720		130,925,918	
Unrestricted		22,873,482		16,519,226		74,911,714		72,248,332		97,785,196		88,767,559	
Total net position	, , , , ,		\$	734,362,663	\$	708,413,925	\$	1,242,208,654	\$	1,185,692,298			

Governmental Activities. Governmental activities increased the City's net position by \$27.1 million. This was due to an increase in sales and use taxes of \$1.5 million and other revenue of \$2.6 million. The remaining increase is the result of reducing expenses in Streets and Highways and Municipal Utilities of \$8.8 million.

As detailed in Note 2A, program revenues are directly associated with a specific activity and account for \$59.1 million or 52% of total revenues related to governmental activities. General revenues, consisting primarily of taxes, are not generally associated directly with any operational governmental function. However, the City has sales and use taxes that are specifically earmarked for open space, streets, public safety and public improvement expenses, and thus are not available for any other governmental activities. The relationships between program revenues and expenses for governmental activities are displayed on the following page.

Total revenues from the governmental activities are depicted as a percentage of the whole on page 30.

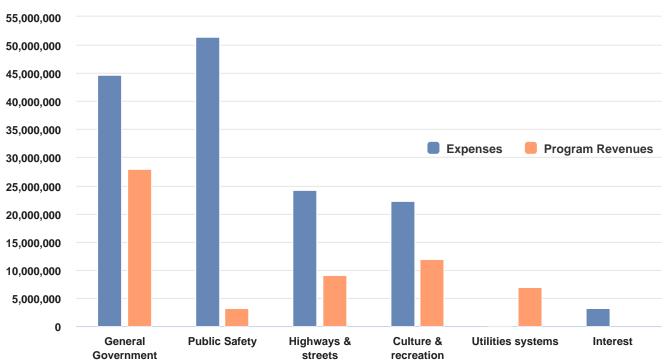

In order to understand the Governmental Funds in detail, the Statement of Revenues, Expenditures and Changes in Fund Balances, Exhibit 4 is useful. Major governmental funds are later analyzed in this discussion.

Revenues by Source - Governmental Activities

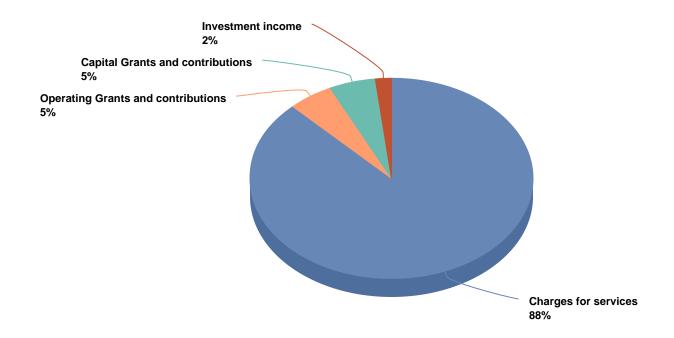

Business-type Activities. Business-type net position increased by \$26 million in 2019. The increase is due to an increase in grants and contributions of \$5.2 million and an increase in charges for services of \$3.6 million. The remaining \$17.2 million is the result of a reduction in expenses.

Revenues by Source - Business-type Activities

THE CITY'S FUND (Financial Analysis of Specific Funds)

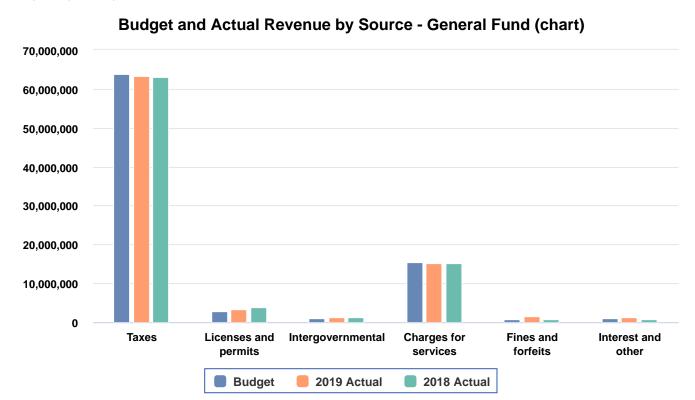

As explained earlier, the City of Longmont uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Longmont's *governmental funds* is to provide information on short-term inflows, outflows, and balances of *spendable* resources. This information is necessary to assess the City's financing requirements. As of December 31, 2019, unassigned fund balances in the major operating funds met or exceeded levels required statutorily or by financial policies established by City Council.

GENERAL FUND

The general fund unassigned fund balance of \$12,405,135 increased by \$390 thousand from the prior year.

The 2019 General Fund budget was adopted without the use of fund balance to fund ongoing operating expenditures. Fund balance of \$1.7 million was budgeted for the purpose of one-time expenditures or capital acquisitions. This practice was formally adopted by the City Council in 1989.

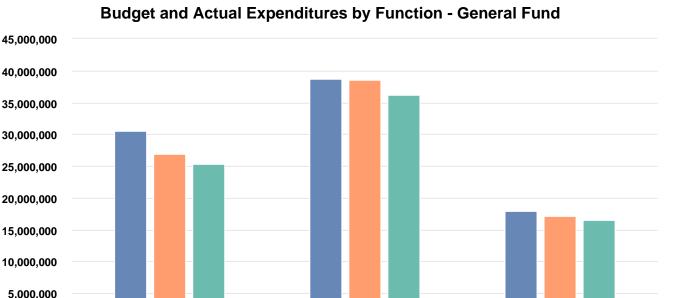

0

General government

Final Budget

Culture & recreation

Year Ended December 31, 2019

Public Safety

2018 Actual

The original budget in the general fund was \$84,396,398. Supplemental appropriations primarily consisted of encumbrances and carryover of uncompleted capital projects for a final budget of \$90,411,553. Actual general fund expenditures totaled \$83,061,442, and there were no significant budget to actual variations.

2019 Actual

Revenues and other financing sources in the general fund totaled \$86,201,788 in 2019, an increase of 1.27% or \$1,083,747, over 2018. Net position increased by \$967,382 in 2019. No significant changes to revenues or expenditures were observed.

Information on the major governmental funds of the City follows the government wide financial statements. These funds are accounted for using the modified accrual basis of accounting. At the end of 2019, the City reported a combined fund balance of \$190 million, of which \$26.2 million was unassigned, assigned or committed and available for spending at the City's discretion within the respective funds for all governmental funds. The remainder of the fund balance is restricted or non-spendable and only available for spending for the purpose specifically identified by the restriction.

Management's Discussion and Analysis

Year Ended December 31, 2019

STREETS SYSTEM MAINTENANCE AND IMPROVEMENTS FUND

The Streets System Maintenance and Improvements Fund was created as a result of a special election held June 3, 1986, authorizing a 3/4 cent sales tax increase. The revenues from the sales tax increase are exclusively for use on City street system expenditures. In 2014, the voters approved a 10-year renewal of the tax set to expire at the end of 2016, thus making it effective through December 31, 2026.

The Streets System Fund collected \$17.8 million of tax revenues in 2019, an increase of \$278,887 from 2018. At December 31, 2019, the fund balance of the fund was \$17.3 million. Of this amount \$12,993 is non-spendable. The remaining is restricted specifically for the purpose of streets and highways expenditures. The total fund balance increased by \$3,537,056 from 2018. A modest increase in total revenue of \$750,108 from 2018 to 2019 was driven by an increase in tax revenues of \$182,993.59, an increase in grant revenues of \$788,770, an increase in state and county road maintenance income of \$183,750 and an increase of \$245,022 in miscellaneous income from 2018 to 2019. It was offset by a decrease in developer participation fees of \$652,409 from 2018 to 2019. The largest impact on fund balance was the total decrease in expenditures from 2018 to 2019 of \$4,048,703. While personnel expenses and capital expenditures increased by \$1,977,345 and \$1,758,722 respectively, operating expenditures decreased by \$5,788,357 from 2018 to 2019 as major street projects were completed in 2018.

PUBLIC IMPROVEMENT CAPITAL PROJECTS FUND

The Public Improvement Capital Projects Fund is used to account for financial resources used for the acquisition and construction of major capital facilities and improvements of the primary government except those financed by the Enterprise Funds. As of December 31, 2019, the fund has a fund balance of \$33.6 million all of which is restricted for the construction of public projects and the payment of debt service.

The primary revenue for the Public Improvement Capital Projects Fund (use tax) increased approximately \$85 thousand in 2019. The City's policy has been to allocate a portion of the 2.0 cents of **use tax** to the Public Improvement Fund and none of the 2.0 cents of **sales tax**. This use tax-only allocation for the Public Improvement Fund was 95.75% in 2009, reduced to 92.93% in 2010, increased to 98.42% in 2011, decreased to 82.7% in 2012, decreased to 79.77% in 2013, decreased to 78.45% in 2014, decreased to 72.12% in 2015, increased to 92.5% in 2016, decreased to 85.24% in 2017, and decreased to 15.0% in 2018, but 15% of the 2.0 cents of Sales tax was allocated also. There was no change in 2019. This allocation is described further in Note 3. A large portion of the fund's revenue (\$2.8 million) paid the annual debt service on the Civic Center expansion and the Recreation Center and Museum Bonds. In 2019, the City issued \$28.6 million in sales and use tax revenue bonds to replace 2 fire stations, rehabilitate the civic center, safety and justice center, library, recreation center, and museum, and perform maintenance on 2 golf courses.

ELECTRIC/BROADBAND UTILITY FUND

The City's electric/broadband utility increased operating revenues by 3.65% over 2018. The operating income in 2019 is \$4,215,435 compared to \$3,372,415 in 2018. Operating revenue went up by \$2.9 million during 2019, primarily due to an increase in Broadband revenue of 9.53%. Operating expenses rose 2.7% overall with a 3.2% increase in purchased power. Purchased power costs increased by 5.5% in 2013, a 5% decrease in 2014, a 2.3% increase in 2015, a 5.8% increase in 2016, a 2.1% increase in 2017, and a 2.1% increase in 2018. The fund remains in good financial condition with current assets exceeding current liabilities by \$6.02 million.

Operating data for the electric/broadband utility are contained in Exhibit 8 of the Financial Section.

Electric/Broadband Utility Fund

	2019	2018	2017	2016	2015
Operating revenues	\$ 83,577,493 \$	80,634,329 \$	76,895,890 \$	68,768,327 \$	65,218,411
Operating income (loss)	4,215,435	3,372,415	3,926,035	(1,775,878)	(421,076)
Change in net position	6,027,134	6,082,418	7,677,491	1,797,477	2,377,227

WATER UTILITY FUND

Operating revenues increased by .75% from 2018. Operating income for 2019 was \$676,201, compared to an operating income of \$2,383,937 in 2018. Operating expenses increased by 10.8% to \$18,892,268 in 2019. Unrestricted working capital in excess of \$37.9 million reflects the strong financial condition of the fund.

Operating data for the water utility are contained in Exhibit 8 of the Financial Section. Comparative data for the last five fiscal years are presented in the following tabulation. The changes in net position over the past five years were caused by capital contributions from special revenue funds established to collect water-related developer fees. The 2019 contributions were \$1,682,611 compared to \$2,021,351 in 2018. The increase in net position in 2019 resulted primarily from developer capital contributions of water totaling \$2.2 million.

Management's Discussion and Analysis

Water Utility Fund

	2019	2018	2017	2016	2015
Operating revenues	\$ 19,568,469 \$	19,423,493 \$	17,671,740 \$	16,271,251 \$	14,230,955
Operating income (loss)	676,202	2,383,937	1,963,446	1,764,052	983,082
Change in net position	9,569,747	19,065,478	8,915,880	9,561,931	6,064,986

SEWER UTILITY FUND

Sewer Fund operating revenues increased 1.87% over 2018. Sewer rates are based upon winter water usage. Operating income for 2019 was \$699,776, compared to \$1,861,543 in 2018. Operating expenses increased by 11.21% to \$14,242,850 in 2019. The fund decreased its unrestricted working capital by \$568,405 in 2019. The net position increased by \$533,428.

In 2013, the City issued \$7.744 million in long-term debt to provide for sewer system capital improvements projects. In 2015, the City issued \$31,100,000 in sewer revenue bonds for additional sewer system capital improvements projects.

Sewer Utility Fund

	2019	2018	2017	2016	2015
Operating revenues	\$ 14,942,625 \$	14,668,488 \$	14,486,062 \$	13,432,618 \$	13,085,133

Change in net position	533,429	5,197,862	8,361,485	4,962,356	3,643,746

STORM DRAINAGE UTILITY FUND

The City created the storm drainage utility in 1984 to identify and control the revenues and expenses attributable to municipal storm drainage services. Revenues are derived from storm drainage user fees and a storm drainage plant investment fee. Operating revenues increased by \$207,207 or 2.94% in 2019. Operating income was \$375,350, an increase from 2018. Operating data for the storm drainage utility is contained in Exhibit 8. Comparative data for the last five fiscal years is tabulated in the box on this page.

Storm Drain Utility Fund

	2019	2018	2017	2016	2015
Operating revenues	\$ 7,262,803	\$ 7,055,596	6,858,415	\$6,730,428	\$ 6,644,935
Operating income	375,351	159,017	1,443,043	1,592,106	2,555,896
Change in net position	6,603,031	6,113,562	9,147,449	3,736,892	3,509,266

Capital Assets and Debt Administration

Capital Assets. The City of Longmont's investment in capital assets for its governmental and business type activities as of December 31, 2019, net of depreciation, equals \$1.1 billion. This investment in capital assets includes land, buildings, utility systems, improvements to land, machinery and equipment, park facilities, and infrastructure. Additional information on the City's capital assets can be found in Note 9 on pages 84-85. of this report, as well as in the transmittal letter.

Long-term Debt. As of December 31, 2019, the City of Longmont had total bonded debt outstanding of \$160,070,000. As of December 31, 2019, there is no debt backed by the full faith and credit of the City, or general obligation debt. \$55,935,000 of the City of Longmont's debt represents revenue bonds secured solely by sales and use taxes. The final \$104,135,000 of debt represents revenue bonds backed by electric & broadband, storm drainage and sewer revenues.

The legal debt margin as prescribed by City Charter is limited to 3% of the actual value of the taxable property. In 2019, this debt limit amounted to \$394,343,773. The total amount of debt applicable to the debt limit is \$0 leaving a legal debt margin of \$394,343,773. Additional information on the City's long-term debt can be found in Note 8 on pages 80-84.

The 2006 Sales and Use tax refunding revenue bonds carry a AA+ rating. The 2008 Storm Drainage Revenue Bonds were rated AA by Standard and Poor's. The 2010 Sewer Revenue Bonds received a rating of AA from Standard and Poor's. The 2010 Open Space Sales and Use Tax revenues bonds received a rating of A1 from Moody's and a rating of A from Standard and Poor's. The 2014 and 2017 Electric & Broadband Revenue Bonds received an insured rating of AA and an underlying rating of A from Standard and Poor's. The 2014 Sewer Revenue Bonds received a rating of AA from Standard and Poor's. The 2015 Wastewater Revenue Bonds received a rating of AA from Standard and Poor's. The 2018 Open Space Sales and Use Tax Revenue Bonds received a rating of A from Standard and Poor's. The 2019 Sales and Use Tax Revenue Bonds received and Poor's.

Land Development Charges.

Management's Discussion and Analysis

Year Ended December 31, 2019

The City collects money for land development charges into seven separate funds. Each fund accounts for the fees separately from any other fund, and is only used for the specified development. The following chart shows the specific collections by fund, interest earned, and amount disbursed.

	Development		Average Interest	Amount
Fund	Charge	Interest Earned	Rate Earned	Disbursed
Recreation Buildings	691,254	62,537	1.496%	-
Transportation Community Investment				
Fee	1,299,864	129,267	1.496%	652,396
Public Building Community Investment				
Fee	-	17,147	1.496%	224,989
Electric Community Investment Fee	638,813	137,425	1.496%	1,239,525
Water System Construction	3,975,235	891,926	1.496%	2,774,838
Water Acquisition	-	155,879	1.496%	902,383
Raw Water Storage	-	11,230	1.496%	-
Sewer Construction	2,279,956	257,960	1.496%	608,753

Impacts on Future Years

Budget amendments are made by ordinance on a routine, periodic basis and are in compliance with Colorado statutes and the City charter. Note 2-D-7 illustrates the comparison of original and final budgets for all funds requiring a budget. Reported budget amendments were primarily for encumbrances and uncompleted capital projects. The 2019 budget amendments will have no significant impact on future services.

The 2020 balanced budget was approved by City Council as required by Colorado law and was filed with the State by January 30.

Contacting the City's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for resources. If you have questions about this report or need additional financial information please contact the Accounting Manager as follows:

Exhibit 4

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Changes in Net Position of Governmental Activities	\$	27,092,939
Change in internal service funds allocated to business-type activities.		(282,824)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities.		6,057,040
Some items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. Net pension expense		(3,406,434)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds: Compensated absences Accrued interest Other post employment benefits		(487,700) (539,239) (74,266)
The amortization of bond premiums and discounts affects long-term liabilities on the statement of net position, but does not provide or use current financial resources to governmental funds.		(2,862,035)
Repayment of bond principal is reported as an expenditure in the governmental funds, but the payment reduces long-term liabilities in the statement of net position. Revenue bonds and Certifications of Participation Capital leases Deferred refundings		5,005,000 613,679 (154,179)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds. Unavailable revenue Proceeds from Bonds are reported as revenue in the governmental funds, but it increases long-term debt in the statement of net position		(1,751,488)
Governmental funds report capital asset acquisition as expenditures. However, in the statement of activities, the cost of assets capitalized is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capitalized assets exceeded depreciation in the current period. Depreciation expense Capitalized assets acquired Loss on disposal of assets Contributions of capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.	7	(17,394,242) 32,427,112 (107,532) 1,873,802
Net change in fund balances - total governmental funds	\$	36,796,245

NOTE 1 – REPORTING ENTITY

The City of Longmont, Colorado, is a municipal corporation governed by an elected mayor and six-member council. As required by generally accepted accounting principles, these financial statements present the City and its component units, entities for which the City is considered financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations and their financial statements are included within the City's.

Blended Component Units

Longmont General Improvement District #1 (GID) - The GID was created by the City of Longmont to account for the proceeds of bonds issued by the District to finance the construction of parking and off-street facilities, landscaping, rest stations, walkways, acquisition of necessary land, etc., in the downtown area, and to provide for debt service. The Longmont City Council members act as ex-officio members on the GID's governing board, and the GID provides services entirely for the City of Longmont. The General Operating Fund of the GID is included as a Special Revenue Fund of the City, and no separate financial statements are issued.

Longmont Urban Renewal Authority (LURA) – On January 10, 2006, City Council created LURA, authorized to exercise powers and carry out duties provided in the Colorado Urban Renewal Law to remedy deterioration of land use, environment and structures. Longmont City Council members govern LURA as the ex-officio commission, and it provides services entirely for the City of Longmont. The Urban Renewal Plan for the Southeast Longmont Urban Renewal Project was adopted in November 2006 and the Urban Renewal Plan for Twin Peaks Mall was adopted in October 2008. LURA became financially active in 2012 with the urban renewal for Village at the Peaks (formally Twin Peaks Mall) and no separate financial statements are issued.

Discretely Presented Component Units

Longmont Downtown Development Authority - The Longmont Downtown Development Authority (DDA) is a discretely presented component unit and is reported in a separate column to emphasize that it is legally separate from the City. The DDA was created by the City of Longmont through an area election and by City ordinance to halt and prevent deterioration of property values within the area, to assist in the development and redevelopment of the area, and to promote the general welfare of the area. The Longmont City Council appoints the Authority board members. A tax is levied on the real property of the area to finance operations in subsequent years. Under Colorado law the DDA has the ability to use tax increment financing. All taxes levied on the increased valuation of the property within the DDA area over the 1983 base valuations are distributed to the Authority. The DDA does not issue separate financial statements.

Longmont Gateway Business Improvement District - The Longmont Gateway Business Improvement District was created by the City of Longmont as a result of petition and by City ordinance in July of 1997 to provide public improvements within the Longmont Gateway Business area. It is managed by a five-member board, all of whom are appointed by the City Council. The City will approve the annual budget as well as all debt issuances. There has been no reportable financial activity since the district's inception because all costs have been paid by Gateway BID property owners.

Downtown Longmont Business Improvement District - The Downtown Longmont Business Improvement District was created by the City of Longmont as a result of petition and by City ordinance in October 1992 to oversee downtown maintenance and promotion. The board of directors is the same as the above-described governing board of the DDA and is a financial benefit to the City. A subsequent election held December 8, 1992, to approve funding for the district failed and the district has remained inactive.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This report, the accounting systems and the classifications of accounts conform to standards of the Governmental Accounting Standards Board and the Government Finance Officers Association of the United States and Canada as published in "Governmental Accounting, Auditing and Financial Reporting." Accounting treatments and financial statements also incorporate current recommendations of the Committee on Governmental Accounting and Auditing of the American Institute of Certified Public Accountants included in the industry audit guide for State and Local Governments.

The accounting policies of the City of Longmont conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

A. Citywide and Fund Financial Statements

Citywide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the City and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the City is reported separately from the legally separate DDA component unit for which the City is financially accountable.

City of Longmont, Colorado FINANCIAL SECTION

Year Ended December 31, 2019

Notes to the financial statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. Even though earmarked sales taxes are legally restricted revenues, they are required to be reported as general revenues by GAAP.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the Citywide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Citywide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all grantor-imposed eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

In applying the susceptible-to-accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. For derived tax revenues (i.e., sales taxes), revenues are recorded when the underlying exchange has occurred and the resources meet the availability criteria. For government-mandated or voluntary non-exchange transactions, revenues are recognized when all eligibility requirements have been met and the resources meet the availability criteria.

Licenses and permits, fines and forfeitures, charges for sales and services, and miscellaneous revenues are generally recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

The Streets Systems Maintenance and Improvement Fund is a special revenue fund that was established to account for sales tax revenues and intergovernmental revenues specifically earmarked for maintenance and improvement of the street system.

The *Public Improvement Fund* is a capital projects fund financed from sales and/or use tax revenues. The portion of City sales and use tax collected and earmarked for this fund is set annually by City ordinance.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of all the enterprise and internal service funds are charges to customers for sales and services. The Water Fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administration expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The City reports the following major proprietary funds:

The Electric and Broadband Fund accounts for the activities of the City's electric and broadband distribution operations.

The Water Fund accounts for treatment and distribution of the City's water supply.

The Sewer Fund accounts for the operations of collection and treatment for the City's sewer system.

The Storm Drainage Fund accounts for maintenance and improvements to the City's storm drainage system.

Additionally, the City reports the following fund types:

Year Ended December 31, 2019

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments of the City on a cost reimbursement basis. These funds are used to account for the operations of the Fleet Fund, Warehouse Fund, Self-insurance Fund, Employee Benefit Fund, Workers' Compensation Insurance Fund and Unemployment Insurance Fund.

The Fiduciary Funds account for the accumulation of resources for pension payments upon retirement to all eligible City employees and/or their spouses. The three Employee Retirement Plan Trust Funds are: Employees' Pension Fund, Fire Pension Fund, and Police Pension Fund.

As a general rule the effect of interfund activity has been eliminated from the Citywide financial statements. Exceptions to this general rule are franchise taxes and other charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

C. Assets, Liabilities and Net Position or Fund Balance, Deferred inflows/outflows of resources

1. Deposits and Investments

Cash and cash equivalents include deposits and short-term investments that are both readily convertible to cash and that generally mature within three months from the purchase date.

City and component unit investments are reported in accordance with GASB Statement 72, as amended.

2. Receivables and payables

Activity between funds for long-term lending/borrowing arrangements outstanding at fiscal year end are reported as "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the Citywide financial statements as *internal balances*.

All trade and property tax receivables, including those for DDA, are shown net of an allowance for uncollectible. The allowance for uncollectible utility accounts receivable is based on a three-year average and approximates 2%. The property tax receivable allowance is 2% of outstanding property taxes at December 31, 2019.

In the City's Affordable Housing, HOME, and Community Development Block Grant Funds, the allowance for uncollectible housing assistance loans is estimated to be 10%, while the forgivable loan allowance is estimated to be the full value of the loans.

3. Inventories and prepaid items

Materials and supplies inventories are maintained by the Warehouse Internal Service Fund in the utilities warehouse. When materials and supplies are used, they are acquired from the Warehouse Internal Service Fund and charged directly to various operating expense accounts of the applicable funds. The inventory records are maintained on a perpetual basis, and an annual physical count is performed to verify inventory balances.

Inventories of the Warehouse Internal Service Fund are stated at average cost.

An automotive parts inventory and a fuel inventory are maintained in the City's fleet garage facility. These inventories are recorded in the Fleet Internal Service Fund at cost, determined on a first-in, first-out basis.

Payments to vendors representing costs of future accounting periods are reported as prepaid items.

4. Restricted Assets

Certain proceeds of bonds, as well as resources set aside for their repayment, are classified as restricted assets. Also restricted due to legally limited use are proceeds of certain developer contributions. The State of Colorado requires restriction of \$2,577,190 for risk retention in the Workers' Compensation Fund.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the Citywide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life exceeding two years. Such assets are recorded at acquisition cost or estimated acquisition cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition cost at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset life are not capitalized.

Notes to the financial statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. The City has implemented GASB 89, therefore any interest incurred during the construction phase of capital assets of business-type activities was not included in the capitalized value of assets constructed.

Depreciation of all exhaustible capital assets is charged as an expense against their operations. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Buildings 40-50 years
Electric Lines 30 years
Equipment 3-10 years

Improvements, including

Infrastructure 20-50 years
Sewer Lines 50 years
Water Pipes 50 years

6. Deferred inflows/outflows of resources and unearned revenues

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has four items that qualify for reporting in this category. One of the items is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Two items are pension related and one item is related to OPEB.

Pension contributions after the measurement date will decrease the pension liability in future years so they are deferred in the current year. Actual experience was less than the actuarial expected experience and is deferred over a 4.3493 year period as of December 31, 2019. Actual earnings on pension plan investments was greater than projected and is recognized over 5 years. The proprietary funds have these same categories for deferred outflows of resources.

Deferred outflows for OPEB, a result of changes in assumptions are amortized over 7.16 years for 2018 deferrals and 7.20 years for 2019 deferrals. Deferred outflows for OPEB, as a result of changes in experience are amortized over 7.16 years for 2018 deferrals and 7.20 for 2019 deferrals. The proprietary funds have the same categories for deferred outflows of resources.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has three types of items that qualifies for reporting in this category.

Deferred inflows of resources are reported in the government-wide statement of net position and in the governmental funds balance sheet. The governmental wide statement of net position reports property taxes, which are levied for future periods. The governmental funds balance sheet reports deferred inflows from two sources: property taxes, which are levied for future periods, and grants. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Deferred inflows related to pension and OPEB are reported on the government-wide statement of net position and are a result of change in experience. These amounts are deferred and recognized as an inflow of resources in future periods.

In the government funds, unearned revenues represent amounts received, which are measurable, but not available for spending. Unearned revenues represent highway funds that have not yet been earned as the proceeds have not yet been spent on eligible costs.

In proprietary funds, unearned revenues represent assets received (measurable) but not yet earned. In the statement of net position, unearned revenues represent lease payments received, but not yet earned as the related service has not yet been provided.

7. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation pay is accrued when incurred in the Citywide and proprietary fund financial statements. Liability for unpaid sick leave is equal to one-half the accumulated balances, which is payable at termination.

Year Ended December 31, 2019

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

8. Long-term obligations

In the Citywide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Fund Balance

In the governmental fund financial statements, fund balances are classified as follows:

<u>Nonspendable</u>: Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

<u>Restricted:</u> Amounts restricted to specific purposes when constraints placed on the use of the resources are either imposed externally by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u>: Amounts that can be used only for specific purposes pursuant to constraints formally imposed by the City Council through action of an ordinance approved prior to year end. Those committed amounts cannot be used for any other purpose unless the City Council rescinds or modifies the specified use by action of an ordinance.

<u>Assigned:</u> Amounts constrained by the City's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the City Manager and Finance Director during the budget process.

<u>Unassigned:</u> All amounts not included in other spendable classifications. The General Fund is the only fund that would report a positive amount in unassigned fund balance.

When unassigned and restricted, committed or assigned resources are available for use, it is the City's policy to use restricted, committed, or assigned resources first, then unassigned resources as needed.

Under City policy, the General Fund is required to maintain a minimum unrestricted fund balance of two to three months expenditures, the Streets Systems Fund is required to maintain a minimum fund balance requirement of 6% of the fund's operating budget, and the Public Safety Fund is required to maintain a minimum fund balance requirement of 8% of the fund's operating budget. The City policy is to include committed, assigned and unassigned balances in the calculation of the minimum unrestricted fund balance.

10. Net Position

Net position represents the difference between assets, liabilities, deferred outflow of resources, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets for governmental and business-type activities, excludes unspent debt proceeds of \$34,086,447 and 8,363,552, respectively. Net position is reported as restricted when there are limitations imposed on their use through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulation of other governments. Net position restricted by enabling legislation include \$93,988,407 for construction, acquisitions, and debt service; \$22,469,774 for transportation improvements; \$7,738,019 for public safety projects; \$4,856,202 for statutory emergency requirement, and \$4,350,381 for other purposes. The city applies expenditures against restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year in that order.

Notes to the financial statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

11. Capital Contributions

Water system development fees, to the extent they exceed the cost of installation and material, are recorded in the Water System Construction Reserve Fund. Cash payments in lieu of water rights are recorded in the Water Acquisition Fund. Sewer system development fees are recorded in the Sewer Construction Fund. Electric Community Investment fees are recorded in the Electric Community Investment Fee Fund. As system improvements from these revenues are completed, transfers in revenue is recorded in the Water, Sewer and Electric Enterprise Funds as applicable. Aid to underground installation fees are recorded as capital contribution revenue in the Electric Enterprise Fund and the Telecommunications Fund. Storm drainage plant investment fees are recorded as capital contribution revenue in the Storm Drainage Fund. System development fees in the Golf Fund are recorded as capital contribution revenue and intergovernmental grant revenue externally restricted for capital acquisition is recorded as capital contribution revenue in the Airport Fund.

12. Joint Venture

Platte River Power Authority (PRPA) was created by an intergovernmental agreement between the cities of Longmont, Fort Collins, Estes Park, and Loveland to supply their wholesale electric power and energy requirements. The governing board of PRPA consists of two members from each municipality. Under Colorado law, PRPA's Board of Directors has the exclusive authority to establish electric rates. The City has contracted for electric energy supply from PRPA through the year 2020. Separately issued financial statements for PRPA are available from its corporate headquarters. The City does not have an equity interest in this joint venture, and the PRPA is not accumulating financial resources or experiencing fiscal stress that would create a significant financial benefit or burden on the City in the foreseeable future.

13. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

D. Budgetary Information

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. By September 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and related financing sources.
- 2. Public hearings are conducted during City Council meetings to obtain resident comments.
- 3. By December 15, the budget is legally enacted through passage of an ordinance.
- 4. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.
- 5. Budgets are legally adopted as a management control device during the year for the General Fund, Special Revenue Funds, (except for the Library Trust Subfund of the General Fund, Historical Preservation Fund, Air Quality Control Subfund of the General Fund, Jones Trust Fund, Traffic Safety Fund, and Subdividers Escrow Subfund of the General Fund), Capital Projects Funds, and the Enterprise Funds. A budget is legally adopted for two of the Internal Service Funds, the Fleet Fund and the Utility Billing CIS Fund.
- 6. The budgets for the General Fund and Street System Fund are adopted on a basis consistent with generally accepted accounting principles (GAAP.)

Budgets for the Special Revenue Funds and the Capital Projects Funds are adopted on a basis consistent with GAAP with two exceptions. The Public Improvement Capital Projects Fund adopts a project-length budget. Changes in allowance for doubtful accounts are not budgeted as expenditures in the Affordable Housing and Community Development Block Grant Funds.

Budgets for the Enterprise Funds are adopted on a basis consistent with GAAP with the following exceptions:

- Capital expenses are treated as operating expenses of the funds.
- The transfers of new vehicles purchased during the year to the Fleet Service Fund are budgeted as operating expenses of the funds rather than as transfers from the Enterprise Funds.
- Depreciation is not budgeted.
- Principal retired is budgeted as operating expenses of the funds.

The budget for the Fleet Internal Service Fund is adopted on a basis consistent with GAAP with three exceptions. The first exception is that capital expenses are treated as operating expenses. The second exception is the transfer in of new vehicles from other funds, which is not budgeted. The third exception is that depreciation is not budgeted.

Year Ended December 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Expenditures may not legally exceed budgeted appropriations at the fund level for all funds. Unencumbered appropriations for all funds lapse at year end, except in the Public Improvement Capital Projects Fund. Revenues of this fund are budgeted each year and a like amount is appropriated for projects. However, appropriations do not lapse until the purpose for which the appropriation was made has been accomplished or abandoned.

7. Budgeted amounts presented are as originally adopted or as amended by City Council. Supplemental appropriations made to the original budget for each fund were as follows:

Year Ended December 31, 2019

E. Subsequent Events

Subsequent to year-end, the City's investment portfolio, particularly the investment of the pension plan, incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.

The United States and Colorado declared a state of emergency in early March due to the global Coronavirus Disease 2019 (COVID-19) pandemic. The financial impact of COVID-19 will impact subsequent periods of the City. The impact on the City's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

NOTE 3 – PROPERTY TAX AND SALES AND USE TAX

Property Taxes:

Annual property taxes are levied and assessed on January 1 and are certified by the County by December 22 of that year. On January 1, of the following year, the County Treasurer bills property owners, thus establishing an enforceable lien on the property. Taxes are receivable in two equal installments by February 28 and June 15 or in full by April 30 following the levy. The County Treasurer collects the property taxes and remits the collections to the City monthly.

Property taxes are recognized as revenue in the year in which they are intended to finance expenditures. The City has no maximum property tax rates and there are no legal restrictions concerning the use of property tax proceeds. The State of Colorado Constitution requires an election be held to increase property tax rates.

Sales and Use Tax:

A 3.53% tax is imposed on the sale or use of all tangible personal property in the City except for certain specified exemptions. The City administers the collection of such taxes from licensed businesses. The sales tax and the use tax is allocated between the General Fund and the Public Improvement Fund annually during the budget process. The remaining 1.53% is earmarked for specific purposes as indicated below.

The 3.53% is allocated as follows in 2019:

Earmarked Sales and Use Tax

 Streets System Special Revenue Fund 	0.750%
 Open Space Special Revenue Fund 	0.200%
 Public Safety Sales Tax Fund 	0.580%
General Sales Tax	
General Fund	1.700%
 Public Improvement Capital Projects Fund 	0.300%
General Use Tax	
General Fund	1.700%
 Public Improvement Capital Projects Fund 	0.300%

NOTE 4 - DEPOSITS AND INVESTMENTS

The City adheres to the guidance provided in GASB Statement No. 40, "Deposits and Investment Risk Disclosures." GASB 40 establishes and modifies disclosure requirements related to investment risks: credit risk (including custodial credit risk and concentrations of credit risk), interest rate risk and foreign currency risk.

Investment Philosophy and Authorized Investment Vehicles - The City invests excess funds under the prudent investor rule in accordance with the City Investment Policy. The criteria for selection of investments and their order of priority are: 1) Safety; 2) Liquidity; and 3) Yield. The Director of Finance and Support Services is responsible for all of the investments of the City. As the City's need for funds is not constant, investments are scheduled in coordination with all funds of the City such that there is as little idle cash as practical. City funds may be invested in any of the following investment vehicles:

- F.D.I.C. Insured Savings Accounts
- Deposits collateralized in local investment pools
- Certificates of Deposit
- Securities of the U.S. Government or its agencies and instrumentalities thereof
- Repurchase Agreements
- Commercial Paper
- Bankers Acceptances
- Corporate Bonds (Grade A or better) limited to purchase by City pension funds
- Publicly traded common and preferred stocks limited to purchase by City pension funds

The City invests in allowable securities by pooling excess funds of each of the individual funds. The City maintains one checking account with separate accounting for each fund. Any fund that issues checks in excess of its amount of equity in pooled cash and investments is treated as having borrowed cash from other funds.

Other restricted funds may be invested in savings accounts or a local government pool of government securities in the name of individual funds. Excess pension funds are invested by money managers in equity, fixed income, securities, Bank Loans, Commodities, and Global REITs. The captions on the statement of net position relating to deposits and investments are as follows:

	Total
Statement of Net Position:	
Equity in pooled cash and cash equivalents-primary government	\$ 270,017,971
Equity in pooled cash and cash equivalents-restricted	2,981,555
Cash and cash equivalents-primary government	392,593
Cash and cash equivalents-restricted	44,403,306
Total	\$ 317,795,425

DEPOSITS - Custodial Credit Risk. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. Deposits are carried at cost. Accrued interest is recorded as a receivable. Deposits include certificates of deposit and bank balances representing equity in pooled cash and investments and savings accounts of certain individual funds. Colorado statutes require that all eligible public depositories pledge collateral having a fair value equal to at least 102% of the aggregate of all public deposits. The City's investment policy parallels the State collateralization requirements. All institutions holding City of Longmont deposits are currently certified as eligible public depositories in accordance with the statutes. As of December 31, 2019, the City's deposits had an ending bank balance of \$ 8,260,568, a corresponding book balance of \$ 5,795,665 and uninsured deposits of \$ 5,572,943

INVESTMENTS - Other Investments include investments in local government pools of government-backed securities. Local government investment pools in Colorado must be organized under Colorado Revised Statutes, and are therefore subject to oversight by the Colorado Securities Commission, with quarterly reporting and annual audits required. The fair value of the City's position in the external investment pools is the same as the value of the pool shares. The investment pools are valued at an amortized cost or Net Asset Value pursuant to Rule 2a-7 under the Investment Company Act of 1940, which approximates the fair value.

Year Ended December 31, 2019

Credit Risk - The City's general investment policy requires the "prudent-investor" standard which states, "investments shall be made with judgment and care under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived." The City will minimize credit risk as stated in their investment policy by limiting investments to the safest types of securities and prequalifying the financial institutions, brokers/dealers, intermediaries, and advisors with which the City will do business under section 12 of the investment policy.

Concentration of Credit Risk- Concentration of credit risk is the risk of loss attributed to the concentration of investment in a single issuer. The investment policy sets the following maximum limits for diversification: 25% in commercial paper, 25% in eligible bankers' acceptances, 25% in time certificates of deposit, 50% in money market funds, 75% in federal instrumentality securities, and 50% in local government investment pools. The City is in compliance with all investment policy limitations.

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a counterparty's failure, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The investment policy states that all investment securities, except certificates of deposit, local government investment pools and money market funds purchased by the City will be delivered by either book entry or physical delivery and will be held in third-party safekeeping by the City approved custodian bank. The City utilizes a third-party safekeeping arrangement with Wells Fargo. GASB has concluded that investments in Mutual Funds and external investment pools are not exposed to custodial credit risk.

The City invests in Colorado Government Liquid Asset Trust Plus (Colotrust Plus) and the Colorado Surplus Asset Fund Trust (CSAFE), both established for Colorado local governments surplus fund pooling. Both pools are regulated by the Colorado Securities Commissioner. Pool investments consist of U.S. Treasury bills, notes and note strips, commercial paper allowed by state statute and repurchase agreements collateralized by U.S. Treasury securities and or instrumentalities. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. Securities owned by the pools are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by the specific pool. ColoTrust Plus and C-SAFE are 2a7-like investment pools and are both rated by Standard and Poor's, and Moody's with current ratings of AAA and Aaa. Investments and investment pools are recorded at fair value, amortized cost or net asset value. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period for ColoTrust or CSAFE CORE.

Interest Rate Risk – The City minimizes the risk that fair value of securities in the portfolio will fall due to changes in general interest rates, by: Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities prior to maturity. This is accomplished by investing operating funds and non-operating funds in shorter term securities (with a maximum of no more than five years), mutual funds and local investment pools. Weighted average market duration as of December 31, 2019 was 1.27 years. The City's investment policy does not otherwise limit interest rate risk.

Year Ended December 31, 2019

NOTE 4 - DEPOSITS AND INVESTMENTS (continued)

As of December 31, 2019, the City had the following investments:

Investment Type	Carrying Value	Weighted Average Market Duration (in years)	S & P Rating	% of Portfolio
U.S. Treasuries	\$ 66,495,737	1.19	AA+	21.33%

Portfolio duration			1.27		
Percentage of Portfolio					100%

INVESTMENTS – FIDUCIARY FUNDS - The City has fiduciary responsibility for three defined benefit pension plans as described in Note 16 and other post-employment benefits as described in Note 14. The majority of the funds available in each of the fiduciary funds are invested in fixed income and equity securities through an independent money manager selected by the pension boards. For marketable equity securities held for investment purposes, fair values are based on quoted market prices or dealer quotes. For other securities held as investments, fair value equals quoted market price, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

The Pension Master Trust investment policy statement objectives are to be viewed over the long term with investments in both equity and fixed income instruments to provide a rate of return which exceeds the inflation rate, as measured by the Consumer Price Index, by 4.25% per year. The plan's investment guidelines are based upon an investment horizon of greater than 5 years and a targeted risk tolerance of -18.6% to -26.9% in any one year to be reviewed each year. In accordance with its investment policy, permissible investments for the plan include publicly-traded stocks and fixed income securities, whether interest-bearing or discount instruments, including money market instruments, subject to any restrictions specified by the plan.

Credit Risk - This is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The Plan's investment policy has specific guidelines that every money manager must follow. Equity investments will not be made with any company with a record of less than three years' continuous operation unless authorized by the board. Equity holdings in any one company should not exceed 10% of the fair value of the plans equity portfolio. Fixed income securities will be rated AAA by Standard and Poor's but fixed income money managers do have discretion to purchase a certain percentage in B or below rated bonds.

Concentration of Credit Risk - Concentration of credit risk is the risk loss attributed to the concentration of the pension's investment in a single issuer. The policy states that the plans assets should be diversified with a strategic asset allocation of 25% in both Domestic Large Cap Value and Domestic Large Cap Growth, 10% in Domestic Small and Mid Cap, 16% in International Equity, 6% in Emerging Mkt Equity, 19% in Domestic Fixed Income and 3% in High Yield Credit, 3% in Commodities, 5% in Low Correlated Hedges, 4% in Global REITs and 9% in Floating Rate Corporate Loans. As of December 31, 2019 these strategic targets have been met. None of the Plan's debt securities represent more than 5% of total investments in any one issuer.

Year Ended December 31, 2019

NOTE 4 - DEPOSITS AND INVESTMENTS (continued)

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a counterparty's failure, the pension fund will not be able to recover the value of its investments. All of the pension securities are held by third party custodian Wells Fargo.

Foreign Currency Risk - Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The City does not have a formal policy that limits its exposure to foreign currency risk.

Interest Rate Risk - This is the risk that changes in interest rates will adversely affect the portfolio's fair value. The pensions fund's investment policy specifies a targeted rate of return of 3.75% over the Consumer Price Index. The Policy also states that the investment guidelines are based upon an investment horizon of greater than five years, so that interim fluctuations should be viewed with appropriate perspective. For 2019, the actual return for the plan was a gain of 6.89%.

As of December 31, 2019, the Fiduciary Funds had the following investments.

Employee, Police and Fire Pension Plans:

Investment Type	Fair Value	% of Portfolio	Rating
Domestic Equities	\$ 60,096,947	35.45%	Not available
International Equities	35,732,457	21.08%	Not available

High Yield Credit	7,586,923	4.48%	Not available
Commodities	11,727,513	6.92%	Not available
Global REIT'S	8,080,247	4.77%	Not available
Hedge Funds	11,635,726	6.86%	Not available
Other	613,062	0.36%	Not available
Total	\$ 169,522,827	100.00%	

FAIR VALUE MEASUREMENT AND APPLICATION - The City adheres to the guidance provided in GASB Statement No. 72, "Fair Value Measurement and Application." The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) in active markets for an identical asset or liability that a government can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs for an asset or liability. The following table presents the fair value of measurements of assets recognized in the accompanying statement of net position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2019.

Year Ended December 31, 2019

NOTE 4 - DEPOSITS AND INVESTMENTS (continued)

As of December 31, 2019, the City had the following investments:

There are six individual investments that are measured at NAV. There are no unfunded commitments, the redemption frequency is either quarterly or semi-annually, and the redemption notice ranges from 30 to 135 days.

Notes to the financial statements

NOTE 5 - DONOR-RESTRICTED ENDOWMENTS

The City is the recipient of three nonexpendable trusts for which the corpora are as follows: Stewart Trust, fund 726, \$40,000, for purchase of library books; Mosher Trust, fund 725, \$635,881, for library purposes; and Kanemoto Trust, fund 724, \$15,000, for Kanemoto Park purposes. Net appreciation on these investments is available for expenditure upon appropriation by City Council in the amounts of \$1,940, \$574,212 and \$1,003 respectively. City Financial Policy requires that the interest earnings on these endowments be expended on the recommendation of the related advisory board.

NOTE 6 - LEASED PROPERTY UNDER CAPITAL LEASES

The City has entered into capital lease agreements for the purchase of a fire station and energy equipment. The City's obligations under all leases shall be annually renewable by the City and are expressly subject to annual appropriation.

The following is an analysis of the equipment and facilities under capital leases by activity and fund, and by type as of December 31, 2019:

Total Governmental Activities	\$ 5,407,446
Energy Equipment Lease, Phase 2	980,686
Energy Equipment Lease, Phase 1	1,850,283
Terry St. Fire Station	\$ 2,576,477
Governmental Activities	

The following is a schedule by years of future lease payments under capital leases together with the present value of the net lease payments by activity type as of December 31, 2019:

Governmental Activities

Year	 Principal	Interest	Total
2020	\$ 634,989	\$ 40,923	\$ 675,912
2021	305,194	22,884	328,078
2022	311,344	16,734	328,078
2023	317,618	10,460	328,078
2024	 324,017	4,060	328,077
<u>Total</u>	\$ 1,893,162	\$ 95,061	\$ 1,988,223

NOTE 7 – DEFEASED DEBT

The City entered into a partial refunding transaction whereby bonds were issued to facilitate the partial retirement of the City's 2008 Storm Drainage Bonds. The resulting proceeds of the 2016 Storm Drainage Refunding Bonds, in the amount of \$8,530,000 plus City funds totaling \$180,000 were placed into an irrevocable escrow account and invested for the purpose of generating resources for the redemption of the refunded debt through December 1, 2028. As of December 31, 2019, \$8,710,000 of the Series 2008 Storm Drainage Bonds outstanding are considered defeased.

The balance of defeased bonds outstanding at December 31, 2019 is \$8,710,000.

Year Ended December 31, 2019

NOTE 8 - LONG-TERM LIABILITIES

Long-term liability activity for the year end December 31, 2019, was as follows:

	Beginning Balance Additions		Reductions		Ending Balance		١	Due Within One Year	
Governmental Activities:									
Bonds Payable:									
Revenue Bond	\$	31,420,000	\$ 28,620,000	\$	(4,105,000)	\$	55,935,000	\$	2,115,000

NOTE 10 – OPERATING LEASE

In 2003, the City leased exclusive surface rights to McIntosh Reservoir with the intention of creating a district park linking Dawson Park, Flanders Park and Boulder County's Lohr Open Space. The cancelable operating lease was extended on December 13, 2017, for an additional five years, through 2022, with an additional five-year extension period through December 31, 2027. The City negotiated the annual lease fee for 2018 to be \$59,908 with an inflation rate of 1% for each subsequent year for the next five years. The rate during the extended term will be increased by 2% over the previous term or by the Consumer Price Index for the Denver-Boulder-Greeley area, whichever is greatest. The City recognized \$60,507 of expenditures for this recreational purpose lease during 2019.

The future minimum lease payments as of December 31, 2019, are as follows:

Year Ending December 31	A	mount
2020	Ś	61,112
2021	\$	61,723
2022	\$	62,340

NOTE 11 – RISK MANAGEMENT

The City faces risks of loss, including damage to and loss of property and contents, general and automobile liabilities, professional liability (i.e. errors and omissions), environmental damage, workers' compensation, and dental and vision costs of employees. A variety of methods are used to provide insurance for these risks. During 1986, the City established the following internal service funds: Self Insurance Fund, Workers' Compensation Fund, and the Employee Benefit Fund to account for and finance its uninsured risks of loss. Commercial policies, transferring risk of loss in excess of risk retention limits are purchased for property and content damage, general, automobile, professional liabilities, and excess workers' compensation liabilities. Employee dental insurance is provided through a privately administered, self-insured plan. Given the lack of affordable coverage available, the City has no coverage for potential losses from environmental damages.

The coverage limits and the deductibles in the commercial policies have stayed relatively constant for several years. The premiums for the policies are allocated between the City's funds based on prior years' loss experiences. Settled claims resulting from these risks did not exceed commercial insurance coverage in any of the past three fiscal years. No claims are defeased through annuity contracts.

Prior to January 1, 2007, the City provided medical insurance coverage for its employees via a self-insured plan administered by a third party administrator. Run out claims for medical benefits were completed in 2007. Prior to January 1, 2013, the City provided dental insurance coverage for its employees via a self-insured plan administered by a third party administrator. Run out claims for medical benefits were completed in 2013. Long term disability benefits continue to be provided through funds that are operated as an internal service fund. Rates are determined in consultation with the administrator based on past claim experience.

All funds of the City participate in these programs and make payments to the appropriate risk retention internal service fund based on actuarial estimates of the amounts needed to pay prior- and current-year claims and to establish a reserve for catastrophic losses. The claims liability of \$3,311,103 reported in these funds at December 31, 2019, is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the funds' claims liabilities amounts in fiscal 2019 and 2018 were

Claim Payments	Claims Liability
Payments	Liability
	Liability
84 \$ 850,650	\$ 629,705
59 703,180	2,307,142
13 \$ 1,553,830	\$ 2,936,847

NOTE 13 – INTERFUND TRANSACTIONS (continued)

Interfund Transfers

- A. Art Transfers The Art in Public Places Fund is funded through transfers from the operating funds of the City. Any construction project costing \$50,000 or more must transfer 1% of the construction cost to the Art fund. Certain funds with legal limitations on their monies are exempt from this requirement. The amounts of such operating transfers in 2019 were \$29,750 from the Sanitation Fund, \$1,058 from the Golf Fund, \$16,818 from the Electric and Broadband Fund, \$24,455 from the Water Fund, \$7,506 from the Water Construction Fund, \$24,411 from the Sewer Fund, \$37,062 from the Sewer 2015 Bond Fund, \$4,352 from the Storm Drainage Fund, \$44,078 from the Public Improvement Fund, \$40 from the Park Improvement Fund, \$27 from the Park and Greenway Maintenance Fund, \$4,290 from the Open Space Fund, \$339 from the Open Space Bond Fund, \$721 from the Lodger Tax Fund, and \$1,833 from the Public Buildings Community Investment Fee Fund.
- B. Vehicle Transfers Any new vehicle additions representing increased service levels are purchased through the appropriate fund, and ownership of the vehicles is subsequently transferred to the Fleet Internal Service Fund. Such transfers are considered routine transfers. The amounts of vehicle transfers in 2019 were \$76,057 from the General Fund, \$45,222 from the Electric Fund, \$51,969 from the Water Fund, \$63,371 from Sewer, \$8,272 from Storm Drain, \$161,073 from the Sanitation Fund, \$33,995 from Street Fund, \$50,602 from the Open Space Funds, and \$379,392 from the Public Safety Fund.

C. Other Interfund Transfers -

- The General fund transferred \$83,059 to the Callahan House Special Revenue Fund to fund operations.
- The General fund transferred \$210,304 to the Museum fund to fund operations.
- The General Fund transferred \$697,000 to the Public Improvement Fund for improvement projects.
- The Electric Enterprise Fund transferred \$23,000 to the General Fund to fund a tree planting project.
- The Sewer Construction Special Revenue Fund transferred \$493,736 while the Sanitation Fund transferred \$29,396 for a total of \$523,132 to the Sewer Fund to pay current debt service on the sewer loan.
- The Workers Compensation Fund transferred \$129,421 to the General Fund for Administrative Fees.
- The General Fund transferred \$1,106,543 to the Affordable Housing Fund to fund operating expenses.
- The Library Fund transferred \$21,244 to the General Fund to offset Library program expenses.
- The Senior Services Special Revenue Fund transferred \$24,586 to the General Fund to assist in the funding of an office assistant position.
- The Enterprise Funds, the Street System, Open Space, Public Safety, Fleet Internal Service Funds and Component Funds made payments to the General Fund for capital equipment expenses and to assist in funding of a new enterprise resource planning software system. The charge is approved by the City Council as part of the appropriation process and is calculated to cover capital equipment expenses paid by the General Fund on behalf of the above-mentioned funds. The total expenses paid by Enterprise Funds to the General Fund were \$13,851 by the Sanitation Fund, \$6,543 by the Golf Fund, \$25,439 by the Electric and Broadband Fund, \$47,150 by the Water Fund, \$39,759 by the Sewer Fund, and \$14,384 by the Storm Drainage Fund. Total expenditures paid by Special Revenue Funds in 2019 were \$18,531 by the Street System Fund. Total payment from the Nonmajor Governmental funds were \$5,887 from the Open Space Fund and \$21,697 from the Public Safety Fund. Total 2019 expenses paid to the General Fund by Internal Service funds were \$7,680 paid by the Fleet Fund.
- The Electric Fund, the Water Fund, the Sewer Fund the Storm Drain Fund and the Sanitation fund transferred \$1,000,000, \$750,000, \$500,000, \$225,000 and \$225,000 respectively to the Utility Biling CIS fund to fund a new utility billing system.
- The Water Construction fund transferred \$3,640,925 to the Water Fund for construction projects.
- The Longmont Urban Renewal Authority made transfers totaling \$2,225,853 to the Village at the Peaks Fund for debt service payments.
- The Marijuanan Tax Fund transferred \$137,000 to the Affordable Housing Fund.
- The Electric CIF fund transferred \$1,239,525 to the Electric Fund for capital construction.

Notes to the financial statements

NOTE 13 - INTERFUND TRANSACTIONS (continued)

Interfund Transactions

- A. Administrative Fee The Enterprise Funds; the Street System, Open Space and General Improvement District #1 Special Revenue Funds; and the Self Insurance, Workers' Compensation Insurance, and Fleet Internal Service Funds make monthly payments to the General Fund for administrative expenses. The charge is approved by the City Council as part of the appropriation process and is calculated to cover ETS, accounting, billing, purchasing and other administrative functions performed and/or paid by the General Fund on behalf of the above-mentioned funds. The total administrative fees paid by Enterprise Funds to the General Fund were \$608,971 by the Sanitation Fund, \$187,304 by the Golf Fund, \$2,047,264 by the Electric and Broadband Fund, \$1,618,591 by the Water Fund, \$966,634 by the Sewer Fund, \$619,307 by the Storm Drainage Fund and \$62,965 by the Airport Fund. Total administrative fees paid by Special Revenue Funds in 2019 were \$913,779 by the Street System Fund, \$150,329 by the Open Space Fund and \$10,033 by the General Improvement District #1 Fund and \$210,304 by the Museum Services Fund. Total 2019 administrative fees paid to the General Fund by Internal Service funds was \$322,829 by the Fleet Fund.
- **B.** Warehouse Fee The Water Enterprise Fund transferred \$15,594, the Sewer Enterprise Fund transferred \$5,871, the Sanitation Enterprise Fund transferred \$4,735, the Golf Enterprise Fund transferred \$3,283, the Storm Drainage Enterprise Fund transferred \$1,767, the Fleet Internal Service Fund transferred \$4,546, the Streets Special Revenue Fund transferred \$2,652 and the Broadband Fund transferred \$249,754 to the Electric Enterprise Fund to fund their shares of warehouse administrative costs.
- C. Franchise Fee The Electric and Broadband Fund, Water Fund and the Sewer Fund pay an annual franchise fee to the General Fund for the exclusive right to provide electric and telecommunications, water and sewer service (respectively) within the city of Longmont. The Electric and Broadband Fund electric fee is 7% of the current year revenues of the electric portion of the fund, or \$5,248,162 in 2019. The broadband fee is .05% of the current year portion of the broadband revenues, or \$8,056 in 2019 for a combined total of \$5,256,218 in 2019 franchise fees for Electric and Broadband. The Water Fund franchise fee approximates 2% of the fund's current year budgeted revenues, or \$416,940 in 2019. The Sewer Fund franchise fee approximates 4% of the fund's current year budgeted revenues, or \$642,236 in 2019.
- D. Electricity Charges and Fiber Optic User Charges The Electric and Broadband Fund sells electricity to the other funds at wholesale rates. The charges to other City funds for use of the fiber optic network by the Electric and Broadband Fund are at wholesale rates.
- E. Fleet Lease Charges The Fleet Internal Service Fund charges all operating departments a fleet lease charge for vehicle operating, maintenance, and replacement costs. The charge is approved by the City Council as part of the appropriation process and is based on each department's actual vehicle usage and needs. The total payments included in the accompanying financial statements in 2019 were \$3,463,524 by the General Fund, \$1,214,479 by the Street System Fund, \$1,604,393 by the Sanitation Fund, \$335,840 by the Golf Fund, \$795,295 by the Electric and Broadband Fund, \$520,117 by the Water Fund, \$411,631 by the Sewer Fund, \$364,812 by the Storm Drainage Fund, \$1,933 by the Airport Fund, \$600,887 by the Public Safety Sales Tax Special Revenue Fund, \$34,761 by the Senior Services Fund, \$13,752 by the Youth Services Fund and \$70,973 by the Open Space Special Revenue Fund.
- F. DDA Building Permits An amount equal to the revenues from building permits issued in the DDA area is transferred to the Component Unit DDA Building Permit Special Revenue fund by the primary government funds receiving the revenues. The amounts of such transfers during 2019 were \$80,861 from the General Fund, \$666 from the Electric Fund, \$209 from the Water Fund, \$190 from the Sewer Fund, and \$7,002 from the Public Improvement Fund.
- **G.** Other Interfund Transactions The Electric and Telecommunication Enterprise Fund transferred \$5,000 to the General Fund for Rhythm on the River sponsorship. The Streets Fund transferred \$226,903 to the General Fund for the purchase of rights of way.
- H. Insurance Charges for Services The Self Insurance Internal Service Fund, the Employee Benefit Internal Service Fund, and the Workers' Compensation Insurance Internal Service Fund each charge all of the operating funds an amount for the insurance coverage accounted for in each of the respective funds. The Self Insurance charge is based on the potential for liability claims in each of the departments. The Employee Benefit charge is a percentage of payroll. The Workers Compensation Insurance charge is based on the type of duties each employee performs and is also a percentage of payrolls.

Year Ended December 31, 2019

NOTE 14 – OTHER POST EMPLOYMENT BENEFITS

The City of Longmont Retiree Health Insurance Plan is a single-employer substantive defined benefit plan that provides an implicit medical plan subsidy to participating eligible retirees of the City of Longmont, the Primary Governmental Component and the Downtown Development Authority Component, a separate employer, up to age 65 through blended rates. This liability, the Other Post Employment Benefit (OPEB) liability, is reported in compliance with GASB Statement No. 75, which became effective for fiscal years with a beginning date after June 15, 2017. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Notes to the financial statements

NOTE 14 - OTHER POST EMPLOYMENT BENEFITS (continued)

A. Plan Provisions

	Employee & DDA OPEB	New Hire OPEB Fire and Police	Old Hire Fire OPEB
Benefit	Retirees under age 65 eligible for medical, dental and vision plans with retirees and qualified dependents paying 100% of the active premium	Retirees under age 65 eligible for medical, dental and vision plans with retirees and qualified dependents paying 100% of the active premium	Retirees under age 65 eligible for medical, dental and vision plans with retirees and qualified dependents paying 100% of the active premium
Disability	Former employees receiving long-term disability benefits from a City Plan or FPPS Statewide Death & Disability Plan and not eligible for Medicare	Former employees receiving long-term disability benefits from a City Plan or FPPS Statewide Death & Disability Plan and not eligible for Medicare	Former employees receiving long-term disability benefits from a City Plan or FPPS Statewide Death & Disability Plan and not eligible for Medicare
Years of service required for benefit	5 years	5 years	5 years
Age and year of service eligible	Hired on or before 12/31/11	-	Hired on or before 4/8/1978
for benefit	Age 55 Member on or after 1/1/2012 Age 60	Age 50	IF eligible for monthly benefit based on years of service or based on a combination of age and service
	General Employees Retirement Plan Participants		
	Age 50 or older who separate from employment and will qualify for Special Early Retirement (Rule of 80) once they turn age 60 (or age 55 for Pre 2012 members)		

B. Plan Descriptions and Contribution Information

Membership in the plan consisted of the following at December 31, 2019, and does not include spouses. Also, the count of active employees does not include those who waived medical coverage:

	Employee Retirement	Downtown Development Authority
Retired employees currently receiving benefit payments	74	0
Active employees	862	4

Year Ended December 31, 2019

NOTE 14 - OTHER POST EMPLOYMENT BENEFITS (continued)

C. Employee Other Post Employment Benefit Plan

The City provides medical benefits for retirees and eligible dependents under age 65 that are the same as those provided for active employees. The contribution requirements of plan members and the City are established and may be amended by the City Manager. Retirees pay 100% of the active premium. Premiums for the 2019 plan year are:

Coverage Tier	Kaiser HMO	Medical Triple Option	Dental	Vision Exam Only	Vision Exam + Materials
EE	\$480	\$617	\$35	\$2	\$13
EE + One	\$977	\$1,259	\$71		
EE + Family	\$1,921	\$2,469	\$148	\$6	\$31

D. Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of December 31, 2019, using the following actuarial assumptions applied to all measurement periods:

	City of Longmont & Downtown Development Authority OPEB
Actuarial valuation date	12/31/2019 End of Year 12/31/2018 Beginning of Year
Actuarial cost method	Entry Age Normal, determined as a level percent of projected pay
Funding Policy	The annual OPEB expense is funded in each year
Discount Rate	The 3.0 percent discount rate is based on the average of the S&P Municipal Bond 20 Year High Grade and Fidelity GO AA-20 Year published yields The prior valuation utilized a discount rate of 3.43%
Medical Trend	6.50%
Payroll Growth	3.00%
General Inflation	2.75% per year

E. Single Discount Rate

The average of the S&P Municipal Bond 20 Year High Grade and Fidelity GO AA-20 Year published yields was evaluated to determine the 3.0 percent discount rate. No projections were made as to the ability of the City to meet benefit obligations in the future since the discount rate is equal to the tax-exempt municipal bond rate. The discount rate of 3.0 percent was applied to all remaining periods.

F. Total OPEB Liability

The City's total OPEB liability of \$7,561,018 for the City of Longmont Employees (primary government) and \$14,954 for the Downtown Development District was measssured as of December 31, 2019, using an actuarial valuation as of that date.

NOTE 14 - OTHER POST EMPLOYMENT BENEFITS (continued)

NOTE 14 - OTHER POST EMPLOYMENT BENEFITS (continued)

J. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2019, the City recognized OPEB expense/(income) of \$89,074 and the Downtown Development Authority recognized OPEB expense/(income) of \$280 for the OPEB plan.

Amounts reported as OPEB deferred outflows/inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	Outflows/Inflows Outflows/Inflow		Combined City of Longmont and
Year	City of Longmont	Downtown Development Authority (DDA)	Downtown Development Authority (DDA)
2020	\$117,403	\$(1,453)	\$115,950
2021	117,403	(1,453)	115,950
2022	117,403	(1,453)	115,950
2023	117,403	(1,453)	115,950
2024 2025 and	117,403	(1,453)	115,950
Thereafter	271,788	(1,289)	270,499
	\$858,803	\$(8,554)	\$850,249

NOTE 15 - TABOR

In November, 1992, an amendment to the Colorado Constitution passed by the voters imposed various revenue and expenditure limits on the City. Prior voter approval is necessary to increase the City's real property tax revenues or spending from one year to the next in excess of the rate of inflation plus a "growth factor" based on the net percentage change in the actual value of all real property within the city. Any new tax, tax rate increase, mill levy increase, or extension of an expiring tax that causes a net tax revenue gain requires voter approval. The Colorado Constitution also requires that any revenue collected, kept or spent in excess of these limitations must be refunded with interest. In November 1996, City of Longmont voters approved a "Voter Approved Revenue Change" that allows the City to keep any revenue collected in excess of the 1992 amendment limits. To the best of the City's knowledge, the City is in compliance with all requirements of this amendment, and no refunds are due at December 31, 2019.

The amendment requires local governments to establish Emergency Reserves equal to at least 3% of Fiscal Year Spending as defined in the amendment. These emergency reserves cannot be used to compensate for economic conditions, revenue shortfalls, or salary and benefit increases. At December 31, 2019, the amount required as an Emergency Reserve in compliance with the Amendment is \$4,852,155 for the City; \$4,047 for the GID component unit, and \$45,878 for the DDA component unit. These are shown as restricted fund balance in the General Fund and in the GID and DDA funds, respectively.

NOTE 16 - RETIREMENT COMMITMENTS

The City sponsors, administers and has fiduciary responsibility for three single-employer defined benefit plans: General Employees' Retirement Plan (Employee Retirement), "Old Hire" Firefighters' Pension Plan (Fire Pension), and the "Old Hire" Police Officers' Pension Plan (Police Pension). Standalone Plan Financial Reports are not issued. Each plan is administered by a Boards of Trustees which acts as the administrator of the plan. Although the assets of the plans are commingled for investment purposes, each plan's assets may be used only for the payment of benefits to the members of the plan in accordance with the terms of the plan.

Year Ended December 31, 2019

	Member after 12/31/2011 Age 65 or 20 years and Age 60				

B. Contributions and Reserves

The Employee Retirement, Fire Pension and Police Pension plans are established through the authority of the City Charter and adopted, by reference, by City ordinances. Plan amendments that increase or decrease benefits require consent of 65% of the members of Fire Pension and Police Pension plans. Obligations to contribute to the plan by plan members and by the City are established by the plans. The required contributions of plan members are established by the plans. The plans require that the City make contributions adequate to finance the benefits provided for the plans on a sound actuarial basis. Required City contributions to the plan must be determined by a competent actuary. An actuarial study is performed annually for the Employee Retirement plan and for the Fire and Police Pension plans. Cost-of-living adjustments may be provided at the discretion of the City Council within the restrictions of Article X Section 20 of the Colorado Constitution. All expenses incurred in administration of the plans are paid from the pension funds when properly authorized.

NOTE 16 - RETIREMENT COMMITMENTS (continued)

Employee Retirement Plan

Plan Description. The Employee Retirement plan is a single-employer defined benefit pension plan established through the authority of the City Charter and City ordinances. The Board of Trustees of the General Employees' Retirement Fund, sometimes referred to as the "Employees' Board," consists of two citizens at large and three employees of the City of Longmont appointed by the City Council, the Finance Director and the City Manager. The Employees Board is responsible for implementing the provisions of the Employees Plan, establishment of investment policies and selection of investment managers for the Employees Fund.

The plan covers all non-uniformed regular employees and provides retirement and death benefits to plan members and their beneficiaries. Cost-of-living adjustments are provided at the discretion of the City Council within the restrictions of Article X Section 20 of the Colorado Constitution. Administrative changes to conform to federal legislation were adopted effective January 1, 2014. New hire contribution rates and retirement age eligibility requirements were adopted effective January 1, 2014.

Contributions. Plan members are required to contribute 5.8% for members joining prior to December 31, 2011, and 4.8% for members joining the Plan after December 31, 2011, of their covered salary. The City is required to contribute at a rate that is determined actuarially. The plan requires that the City make contributions adequate to finance the benefits provided by the plan on a sound actuarial basis. An actuarial study is performed annually using the entry age actuarial cost method. The City currently contributes 7.7% of member's monthly compensation.

Fire Pension Plan

Plan Description: The Fire Pension plan is a single-employer defined benefit pension plan established under Colorado statutes and governed by City ordinance. The Board of Trustees of the "Old Hire Firefighters' Pension Fund, hereinafter referred to as the "Firefighters Board," consists of the Mayor of Longmont, Colorado, the Finance Director of the City, one City Council member and three eligible active or retiree participants. The Firefighters Board is responsible for implementing the provisions of the Firefighters Plan, establishment of investment policies and selection of investment managers for the Firefighters Fund.

Plan amendments that increase or decrease benefits require consent of 65% of active participants. Firefighters hired before April 8, 1978, are covered either by this plan or have transferred to a defined contribution plan, as detailed in a later section entitled "Participant Changes." Membership in the Fire Pension plan is limited to employees whose covered employment began prior to April 8, 1978. Administrative changes to conform to federal legislation were adopted effective January 1, 2014.

Contributions: Plan members are required to contribute 10% of their covered salary. The City is required to contribute at a rate that is determined actuarially. The plan requires that the City make contributions adequate to finance the benefits provided by the plan on a sound actuarial basis. An actuarial study is performed biennially using the entry age actuarial cost method. The City did not make a current year contribution as none was required.

Police Pension Plan

Plan Description: The Police Pension plan is a single-employer defined benefit pension plan established under Colorado statutes and governed by City ordinance. The Board of Trustees of the "Old Hire" Police Officers' Pension Fund, hereinafter referred to as the "Police Board," consists of the Mayor of Longmont, Colorado, the Finance Director of the City, one City Council member and three eligible active or retiree participants. The Police Board is responsible for implementing the provisions of the Police Plan, establishment of investment policies and selection of investment managers for the Police Fund.

Plan amendments that increase or decrease benefits require consent of 65% of plan members. Police officers hired before April 8, 1978, are covered either by this plan or have transferred to a defined contribution plan, as detailed in a later section entitled "Participant Changes". Membership in the Police Pension plan is limited to employees whose covered employment began prior to April 8, 1978. Administrative changes to conform to federal legislation were adopted effective January 1, 2012.

Contributions: There are no current employee plan members. The City is required to contribute at a rate that is determined actuarially. The plan requires that the City make contributions adequate to finance the benefits provided by the plan on a sound actuarial basis. An actuarial study is performed biennially using the entry age actuarial cost method. The City made a current year contribution of \$24,168.

The City does not issue separate financial reports for individual pension plans, and are presented as combining statements for fiduciary funds.

Year Ended December 31, 2019

NOTE 16 - RETIREMENT COMMITMENTS (continued)

GASB 67 Disclosures

Governmental Accounting Standards Board Statement No. 67 Financial Reporting for Pension Plans - an amendment of GASB Statement No. 25 (GASB 67) establishes the requirements for governmental pension plan financial statement reporting, including pension plan financial statements included as a pension trust of a government. Accordingly, GASB 67 applies to the city's statement of fiduciary net position, statement of changes in fiduciary net position, certain notes to the financial statements and certain required supplementary information (RSI). GASB 68 sets forth the pension reporting requirements for the city in the statement of net position, statement of activities, certain notes to the financial statements and certain RSI. As no stand-alone financial report is issued for individual pension plans, all required disclosures for GASB are contained in this note.

Because different measurement dates are used for GASB 67 and GASB 68, GASB 68 disclosures will correspond to the city's basic financial statements except for the fiduciary funds statements reported under GASB 67.

C. Plan Descriptions and Contribution Information

E. Summary of Significant Accounting Policies

Method Used to Value Investments: Investments are reported at fair value or net asset value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are estimated fair values. Cost of administering the Plans are all financed from contributions and earnings of the Plan.

F. Investment Policy and Concentrations

At December 31, 2019, the market value of pooled plan investments total \$169,522,827. These investments included Mutual Funds account with a market value of \$141,491,203, representing 83.46% of total plan assets; Westfield Capital Management account with a market value of \$13,726,887, representing 8,10% of total plan assets; Diamond Hill account with a market value of \$14,296,817, representing 8.43% of total plan assets; and Cambiar account with a market value of \$7,920, representing 0.005% of total plan assets. There are no investments in, loans to, or leases with any City official or other related party in any of the plans.

The assets of the Employees Fund, Firefighters Fund and Police Fund are commingled for investment purposes in a Master Trust. The commingling of the assets creates economies of scale, which promotes lower investment and custodial expenses as well as increased diversification of the assets.

Master Trust assets may be invested in publicly traded stocks and fixed income securities, whether interest-bearing or discount instruments, including money market instruments, subject to any restrictions hereinafter specified. Investment in insurance company investment contracts, such as Guaranteed Investment Contracts, is permitted. No other securities are permissible investments without the specific approval of the Employees, Firefighters and Police Boards.

The long-term financial requirements of the Employees, Firefighters and Police Plans and the reasoned preferences of the three Boards imply a balanced investment approach.

Year Ended December 31, 2019

NOTE 16 - RETIREMENT COMMITMENTS (continued)

The following are the adopted asset allocation policies for each plan as of January 1, 2019:

	Target Allocation						
	Employee	Fire	Police				
Asset Class	Retirement	Pension	Pension				
Domestic Large Cap Value	12.00%	12.00%	12.00%				
Domestic Large Cap Growth	12.00%	12.00%	12.00%				
Domestic Mid Cap Equity	3.00%	3.00%	3.00%				
Domestic Small Cap Equity	7.00%	7.00%	7.00%

Domestic Fixed Income	14%	14%	14%				
Floating Rate Corportage Loans	7%	7%	7%				
Real Estate	5%	5%	5%				
Low Correlated Hedge	7%	7%	7%				
Reinsurance	5%	5%	5%				
	100%	100%	100%				

Concentrations

None of the Plan's debt securities represent more than 5% of total investments in any one issuer.

Money-weighted Rate of Return on Investments

For the year ended December 31, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, was 19.10% for the Employee Retirement Plan, 19.90% for the Fire Pension Plan and 19.30% for the Police Pension Plan. The annual money-weighted rate of return expresses investment performance, net of investment expenses.

G. Net Pension Liability

The components of the net pension liability of the Plans as of December 31, 2019 were as follows:

		- 1	Downtown			
	Employee Development		Fire		Police	
	Retirement		Authority		Pension	Pension
Total Pension Liability	\$ 184,207,516	\$	888,461	\$	2,595,893	\$ 1,312,764
Plan Fiduciary Net Position	166,064,108		800,953		2,830,970	1,221,474
Net Pension Liability	\$ 18,143,408	\$	87,508	\$	(235,077)	\$ 91,290
Plan Fiduciary Net Position as a Percentage						
of the Total Pension Liability	90.15%		90.15%		109.06%	93.05%

Note: Different measurement dates are used under GASB 67 and GASB 68 this table presents GASB 67 pension liability. See page 103, Section C, for the Net Pension Liability under GASB 68.

NOTE 16 - RETIREMENT COMMITMENTS (continued)

H. Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of January 1, 2019, and a measurement date of December 31, 2019, using the following actuarial assumptions applied to all measurement periods:

	Employee Retirement	Fire Pension	Police Pension
Actuarial valuation date	January 1, 2019	January 1, 2019	January 1, 2019
Actuarial cost method	Entry Age Normal	Entry Age Normal	Entry Age Normal

Note: Different measurement dates are used under GASB 67 and GASB 68. This table presents pension liability under GASB 68 and is reported as a liability in the financial statements.

D. Actuarial Assumptions

The City has chosen to use December 31, 2018 as its measurement date for the net pension liability. The December 31, 2018 reported net pension liability was determined using a measure of the total pension liability, less the amount of the pension plan's fiduciary net position as of December 31, 2018. The December 31, 2018 total pension liability was determined by an actuarial valuation performed as of January 1, 2018, which used updated procedures to roll forward the estimated liability to December 31, 2018.

Employee

* Includes Inflation rate at	2.75%	0%	0%	

NOTE 16 - RETIREMENT COMMITMENTS (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. For each major asset class that is included in the pension plan's target asset allocation as of January 1, 2018, these best estimates are summarized in the following table for both GASB 67 and GASB 68:

	Long-Term Expected Real Rate of Return						
	Employee	Fire	Police				
Asset Class	Retirement	Pension	Pension				
Broad Domestic Equity	6.75%	6.75%	6.75%

Inflation	2.25%	2.25%	2.25%				

E. Single Discount Rate

For both GASB 67 and GASB 68 a Single Discount Rate of 7.50% was used to measure the total pension liability. This Single Discount Rate was based on the expected rate of return on pension plan investments of 7.50%. The projection of cash flows used to determine this Single Discount Rate assumed that plan member and employer contributions will be made at the current scheduled contribution rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Sensitivity of Net Pension Liability to Changes in the Single Discount Rate

The following presents the net pension liability of the Pension Plans calculated using a Single Discount Rate of 7.50%, as well as what the Plan's net pension liability would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

	1% Decrease		Current Rate	1% Increase			
Employee Retirement							
Discount Rate		6.50%	7.50%		8.50%		
Net Pension Liability	\$	49,054,764	\$ 29,955,751	\$	12,961,039		
Fire Pension							
Discount Rate		6.50%	7.50%		8.50%		
Net Pension Liability	\$	79,399	\$ (90,525)	\$	(241,786)		
Police Pension							
Discount Rate		6.50%	7.50%		8.50%		
Net Pension Liability	\$	260,377	\$ 185,172	\$	117,201		

H. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2019, the City recognized pension expense/(income) of \$4,823,730, \$162,245 and \$(6,723) for Employee Retirement, Fire Pension and Police Pension, respectively. At December 31, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources			Deferred Inflows of Resources	Net Deferred Outflows (Inflows) of Resources	
Employee Retirement						
Net difference between expected and actual experience	\$	1,282,482	\$	(132,661)	\$	1,149,821
Net difference between projected and actual earnings						
on pension plan investments		13,229,269		-		13,229,269
Contributions subsequent to the measurement date		3,614,888		-		3,614,888
Total	\$	18,126,639	\$	(132,661)	\$	17,993,978
Fire Pension						
Net difference between projected and actual earnings						
on pension plan investments		247,505				247,505
Contributions subsequent to the measurement date		-				-
Total	\$	247,505	\$		\$	247,505
Police Pension						
Net difference between projected and actual earnings						
on pension plan investments		117,514		-		117,514
Contributions subsequent to the measurement date		24,168				24,168
Total	\$	141,682	\$	-	\$	141,682

The contributions made subsequent to the measurement date was \$3,6314,888 and \$24,168 for Employee Retirement and Police respectively. This amount is reported as deferred outflows of resources related to pensions and will be recognized as a decrease in the net pension liability and therefore will not be included in future pension expense.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Net Deferred Outflows of Resources							
Employee							
Year Ending December 31	31 Retirement			Fire Pension		Police Pension	
2020	\$	5,107,714	\$	91,894	\$	47,027	
2021		2,495,561		32,839		15,517	
2022		2,218,684		34,505		15,119	
2023		4,557,131		88,267		39,851	
Total	\$	14,379,090	\$	247,505	\$	117,514	

Year Ended December 31, 2019

NOTE 16 - RETIREMENT COMMITMENTS (continued)

I. Participant Changes

Legislation enacted by the Colorado General Assembly in 1989 allowed firefighters and police officers hired before April 8, 1978, to make an individual choice between the defined benefit plan that they had been participants of or a money purchase plan to provide their retirement benefits. Individual selections were made in November of 1990; 17 of the 23 active participants of the Fire Pension plan and 13 of the 16 active participants of the Police Pension plan chose to enter the money purchase plan.

The City offered these participants the opportunity to enter the Fire and Police Money Purchase Plans, defined contribution plans discussed below. Participants were allowed to withdraw an amount equal to the total of their personal contributions to the plan plus an equal amount representing City contributions. Alternatively, those participants whose accumulated actuarial benefit was greater than the total contributions were allowed to withdraw that amount. Interest was allocated to those amounts based on the estimated historical rates of return on the pension fund investments. For the year ended December 31, 2018, the total amounts transferred for Police and Fire were \$24,168 and \$0, respectively.

Before final approval was given to the withdrawal, actuarial calculations were made to determine the impact of the withdrawals on the defined benefit plans. The result was that the contribution required to amortize the unfunded actuarial accrued liability decreased. Although employee contributions to these plans decreased significantly, the City will be able to maintain sufficient contributions to the plans as the employer contribution requirement contributions previously being made to the defined benefit plans. An actuarial study was made as of January 1, 1991, to provide actual actuarial contribution requirements for the plans in their new conditions. Further actuarial studies have updated those requirements.

The Plan was amended and restated effective January 1, 2013, to include new retirement age and contribution rate requirements for members who join the Plan after December 31, 2011. New Plan members who joined after December 31, 2011, must contribute 4.7% of compensation to the Plan and the early retirement age requirement has risen to 60. The Plan contribution rate for members of the Plan prior to December 31, 2011, has been increased to 5.7%.

J. Defined Contribution Plans

The City of Longmont provides defined contribution plans for all regular uniformed and non-uniformed employees as described below.

Fire and Police Money Purchase Plans. The Fire Money Purchase Plan and Police Money Purchase Plan, defined contribution plans, were established effective January 1, 1985, pursuant to state legislation that allowed the City to withdraw from the Fire and Police Pension Association. Under these plans, the City and plan members each contributed 8% of base pay. The City will have no future liability to the plan. Effective January 1, 1998, changes to the plan were adopted to allow daily valuation of accounts. Contribution rates were increased by a vote of the active participants to increase contributions from 8% to 10% of base pay with the City match of 10% effective January 1, 2007. Neither plan includes assets that are investments in, loans to, or leases with any City official or other related party.

Covered payroll for the plan during 2019 was \$21,971,089. Both the City and the participants contributed the required 10% to this money purchase plan in 2019 amounting to \$2,197,109 each from the City and from employees for a total of \$4,394,218 of contributions. Vesting schedule for the plan is as follows:

	Percentage
Years of Service	Vested
less than 3	
3	60%
4	80%
5 or more	100%

Money Accumulation Pension Plan. The City provides the Money Accumulation Pension Plan for all regular City employees other than firefighters and police officers. This plan, a defined contribution plan, was adopted on January 1, 1980, in lieu of participation in Social Security. The City has no future liability to this Plan. Administrative changes to conform to federal legislation were adopted effective January 1, 2013. Contributions of 5% of base pay (6% for new members of the Plan after December 31, 2011) are required from all participants and a matching contribution of 5% is made by the City to the Plan. Covered payroll for the plan during 2019 was \$47,260,555. The City contributed the required 5% of base compensation to the plan in 2019 amounting to \$2,369,028 and participants contributed the required 5% (6% for new members of the Plan after December 31, 2011) from employees amounting to \$2,291,603 for a total of \$4,654,631 of contributions. Vesting schedule for the plans is as follows:

Year Ended December 31, 2019

NOTE 16 - RETIREMENT COMMITMENTS (continued)

	Percentage
Years of Service	Vested
less than 1	
1	25%
2	50%
3 or more	100%

The Money Accumulation Pension, Fire and Police Money Purchase plans are established through the authority of the City Charter and adopted, by reference, by City ordinances. The required contributions of plan members are established by the plans. Plan amendments to the Fire and Police Money Purchase plans require 65% consent of the members. A Retirement Board composed of six (6) members is responsible for the management and administration of the Money Accumulation Pension plan. The Director of Finance, the Human Resources Director and the City Manager, or their designees, shall be members of the board in addition to three (3) active employees who are covered by the Plan. The three (3) active employees shall be appointed by the City Council. A majority of the six (6) members of the Board shall constitute a quorum. All actions taken by the Board shall be approved by a majority vote of all of the members of the Board present.

NOTE 17 – DEFERRED COMPENSATION PLAN

The City offers all of its employees the opportunity to participate in a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The employees are allowed to defer a portion of their salary. The deferred amounts are not available to the employees until termination, retirement, death, or unforeseeable emergency. The International City Management Association administers the plan and holds the assets in trust for the further exclusive benefit of the employee participants. Employees are offered a selection of investment alternatives for the deferred funds including cash, bond and equity funds or a combination thereof.

NOTE 18 – WINDY GAP WATER PROJECT

The City is a participant in the Municipal Subdistrict, Northern Colorado Water Conservancy District (Northern), formed in 1970 under the sponsorship of the cities of Boulder, Longmont, Loveland, Fort Collins and Greeley, and the Town of Estes Park (collectively, the "Six Cities") for the purpose of developing a new and independent supplemental water supply for use by the Six Cities or other subsequent assignees. The City owns 80 of the 480 total units, therefore making the City a 16 2/3% participant in the Subdistrict. The City has neither direct financial responsibility for the costs and operations of the Subdistrict nor any residual interest in the net assets.

This water supply is being provided through the Windy Gap Project for water diversion. Through this agreement, the City may receive 8,000 acre feet of water per year. The City may attempt to lease or sell a portion of this water to assist in the payment of its annual assessed contributions to the Subdistrict.

Bonds were issued by the Subdistrict in 1981 to finance the cost of the Windy Gap Project. The \$119,280,000 issue was refinanced in multiple subsequent years to take advantage of more favorable interest rates. The bonds issued by the Subdistrict are serviced by Water Allotment contracts entered into with each of the six participants. Therefore, the City is liable only for the annual payment billed under the Water Allotment Contract, which is 16 2/3% of the debt service annual costs related to the Subdistrict's acquisition, construction, operation and maintenance of renewals and replacements to the project. The bonds are secured by a pledge of the revenues of the Subdistrict attributable to the project, including all annual charges to the participating municipalities and any other revenues derived from operations of the project. The bonds are not considered general obligations of the City. The Subdistrict may levy assessments against property owners within the Subdistrict.

In 1993, the City contracted with Northern to participate in a pipeline construction from Carter Lake to Longmont. The project was completed in 1995, providing the City capacity of 13.5 cubic feet per second. In December of 2000, the City authorized an intergovernmental agreement with Northern to build a pumping plant that increased City capacity to 24.3 cubic feet per second.

Construction of the Windy Gap parent project commenced in 1985 and was completed in 2017. The City's total cost of the parent project totaled \$52,752,194. An additional Windy Gap Firming project commenced in 2000. Since 2000, the City has invested \$6,820,062 in the Firming project. Total investment in the Windy Gap Firming project for 2019 totaled \$888,889.

NOTE 19 – JOINT VENTURE PLATTE RIVER POWER AUTHORITY

The City purchased \$50,664,845 of electric power during 2019 from Platte River Power Authority of which \$4,165,368 is outstanding as an account payable of the Electric Enterprise Fund at December 31, 2019.

Notes to the financial statements

NOTE 22 – SOLID WASTE FINANCIAL ASSURANCE

The City's Water Utility owns and operates a Water Treatment Facility, which through the treatment process produces solids, and therefore must provide financial assurance of estimates for post closure costs in accordance with regulations pertaining to solid waste sites and facilities (6 CCR 1007-2, Part 1) as set by Colorado Department of Public Health and Environment. The facility is not expected to be closed in the future; however, in the event of closure, the City estimates and provides assurance of total Closure Costs Requirements of \$1,770,459.97. This estimate is not reported as a liability by the City because the water treatment facility does not meet the definition of landfill contained in GASB Statement No. 18, as defined by the U.S. Environmental Protection Agency. The City concluded there is no liability under GASB Statement No. 83 as well.

Note 23 – TAX ABATEMENT AGREEMENTS

Under the authority of the City's municipal code section 4.72 – Economic Development Incentives, the City has entered into agreement with five companies who are either expanding business, or are relocating to Longmont who will create additional primary jobs in the area. As of December 31, 2019, the City has agreed to waive certain permit fees and use tax for these projects totaling \$253,414. The use tax portion of this total is \$140,446.

NOTE 24 - CORRECTIONS TO PRIOR PERIODS

The City's Other Post Employment Benefit (OPEB) fund was not considered a trust fund. It was determined that keeping these funds in a separate account was unnecessary. A prior period adjustment has been recorded to the Employee Benefits fund to close out the OPEB fund. The following table shows the restatement of net position.

	As F	Reported 2018	Ad	ljustment for			
Fund		CAFR		OPEB	Restated Amount		
Employee Benefits Internal Service Fund	\$	8,070,425	\$	3,474,680	\$	11,545,105	
Governmental Activities		477,278,372		3,474,680		480,753,052	

NOTE 25 – POSSIBLE VIOLATIONS OF STATE AND LOCAL LAWS

The City is aware that expenditures exceeded appropriations in the Village at the Peaks Special Revenue Fund, which may be a violation of state and local budget laws.

REQUIRED SUPPLEMENTARY INFORMATION

The following historic trend information is required supplementary information relating to the Employee Pension, Fire Pension, and Police Pension plans as well as the Retiree Health Insurance Plan. It relates to the retirement plans' progress made in accumulating sufficient assets to pay benefits when due.

EMPLOYEE, FIRE AND POLICE PENSION PLANS SCHEDULE OF EMPLOYER CONTRIBUTIONS (CONTINUED) REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2019

Notes to the Schedule of Contributions

The following are the methods and assumptions used to determine the contribution rates:

	Employee	Fire	Police
	Retirement	Pension	Pension
Actuarial valuation date	January 1, 2019	January 1, 2019	January 1, 2019
Actuarial cost method	Entry Age Normal	Entry Age Normal	Entry Age Normal
Amortization method	ization method Level dollar, Open		Level dollar, Open
Remaining amortization period	30 years	11 years	9 years
Asset valuation method	5-year smoothed market;	market value	market value
	20% corridor		
Inflation	3.25	0%	0%
	3.25-6.5% including		
Salary increases	inflation	0%	N/A
Investment rate of return	7.50%	7.50%	7.50%
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition	Age 50 and 20 years of service	N/A
Post-retirement Mortality	RP-2000 Combined Healthy Mortality Table using generational improvements projected with Scale AA.	RP-2000 Combined Healthy Mortality Table using generational improvements projected with Scale AA.	RP-2000 Combined Healthy Mortality Table using generational improvements projected with Scale AA.
Other information	The plan was amended effective January 1, 2018 to define a new death benefit for an active member who dies after the normal retirement date or eligibility for special early retirement	There were no benefit changes during the year.	There were no benefit changes during the year.
	It is the policy of the plan sponsor to contribute at a rate at least equal to the actuarially determined contribution. The City is currently contributing at a rate of 7.7% of each member's monthly compensation. Commencing with the January 1, 2020 valuation, the City is contributing at the rate of 8% of each member's monthly compensation.

⁽¹⁾ The 2018 Public Improvement Capital Projects Fund differs from total expenditures due to the principal payment for an advance from the Fleet Fund for Public Safety radios that reduced the advance on the balance sheet.

Conservation Fund

Combining and Individual Fund Statements and Schedules

Year Ended December 31, 2019

NONMAJOR SPECIAL REVENUE FUNDS

Special Revenue Fund types are used to account for revenues from specific taxes or other earmarked revenue sources which, by law, are designated to finance particular functions or activities of the City.

This fund was established to account for receipts from the State of Colorado Lottery specifically

earmarked for environmental enhancements. Park Improvement Fund Permit fees received from subdividers are the chief source of financing for the Park Improvement Fund. These funds are earmarked for the development of new parks. General Improvement District The ordinary operations of the General Improvement District #1 are accounted for in this fund. The #1 Operating Fund operations are financed by taxes and other general revenues. Community Development Block Grant Fund This fund is used to account for funds granted by the Community Development Block Grant program administered by the Department of Housiing and Urban Development Downtown Parking Fund The sale of downtown parking permits is the source of revenue for this fund. The revenues generated will be used for improvements to downtown parking. Judicial Wedding Fee Fund Fees for wedding services performed by the municipal judge are accumulated in this fund. The revenues are used for defraying the costs of the municipal judicial system. Police Seizures Fund Assets seized in drug-related arrests are accounted for in this fund. They are used for Public Safety expenditures. Prevention/Education Fund This fund is used to accumulate donations to the Police Department's Drug Prevention and Education program. Youth Services Fund Donations specifically earmarked for the use of the Youth Service Division are accounted for in this Recreations Building Fund Collection of community investment fees to meet development-created demand for recreation buildings are accounted for in this fund. Transportation Community Collection of community investment fees to meet development-created demands for arterial street Investment Fee Fund and intersection improvements are accounted for in this fund. **Public Buildings Community** Collection of community investment fees to meet development-created needs for public facility Investment Fee Fund buildings are accounted for in this fund. **Electric Community Investment** Collection of community investment fees to meet development-created needs for electric system Fee Fund improvements are accounted for in this fund. Water System Construction The Water System Construction Reserve Fund was created to make system improvements funded

Reserve with development fees.

Water Acquisition Fund

The Water Acquisition Fund was created for the purpose of acquiring additional water rights for the
City as needed to support its water enterprise system. The Fund is funded with the cash payments

received in lieu of water rights.

Raw Water Storage Reserve Fund

The Raw Water Storage Reserve Fund was created for the purpose of developing the City's winter

water supply as part of the City's water enterprise system. The Fund was initially funded with

proceeds from the sale of the High Mountain Dams.

Sewer Construction Fund The Sewer Construction Fund was created for the purpose of making improvements to the City's

sewer enterprise system related to growth of the entire system. The fund is funded with applicable

development.

Library Services Fund Donations and grants specifically earmarked for the use of the Library are accounted for in this Fund.

Museum Services Fund Donations and grants specifically earmarked for the use of the Museum are accounted for in this Fund.

Historic Preservation Fund

Combining and Individual Fund Statements and Schedules

This fund was established to collect monies from the applications for state income tax credits for

Year Ended December 31, 2019

NONMAJOR SPECIAL REVENUE FUNDS (continued)

rehabilitations to qualified historical properties and to carry out related historic preservation activities. Callahan House Fund This fund was established in 1995 to account for monies received for the specific use and benefit of the Callahan House, a gift to the City for the use of citizens. Senior Services Fund Donations and grants specifically earmarked for Senior Services are accounted for in this fund. This fund was established in 1996 to collect revenues for improvements to existing parks. Parks Grants & Donations Fund Affordable Housing Fund This fund was established in 1997 to be used for down payment assistance and to implement other affordable housing programs. Open Space Fund The Open Space Fund was established to account for sales and use tax revenues specifically earmarked for acquisition, improvement, maintenance and preservation of open space. Public Safety Fund This fund was established in 2007 for the purpose of collecting sales and use tax revenues earmarked for public safety expenditures. Lodgers Tax Fund This fund was established in 2008 for the purpose of collecting a tax on lodging services to be used to promote tourism. Special Retail Marijuana Sales Tax This fund was established in 2018 for the purpose of collecting a tax on the sale of retail marijuana and retail marijuana products. The funds will be used for operations and capital activity. **Probation Services Fund** This fund was established in 2007 for the purpose of collecting a surcharge on all fines to fund court probation services. Park/Greenway Maintenance Fund This fund was established to account for fees received for the maintenance of parks and greenways.

Traffic Safety Fund This fund was established to account for fees received for traffic safety.

Museum Trust Fund The Museum Trust is administered by the Museum Board and its purpose is to provide funds to

restore, rehabilitate, etc., the Longmont Museum & Cultural Center.

Jones Foundation Trust Fund This fund was established to account for donations received for the purpose of improving the Izaak

Walton Pond area and the St. Vrain Greenway.

Longmont Urban Renewal This fund was established to account for activites provided for the Colorado Urban Renewal Law to **Authority Fund**

remedy deterioration of land use, environment and structures.

Village at the Peaks This fund was established to account for incremental tax revenues and intergovernmental revenues

specifically earmarked for improvements in the Twin Peaks Mall Area Urban Renewal Area.

NONMAJOR PERMANENT FUND

Mosher/Kanemoto/Stewart Trust This fund was established to account for monies provided by private donors to finance library and park Fund

improvements. The principal amounts of the gifts must remain intact while interest earnings can be

used for the improvements.

Net (loss) (GAAP basis)

INTERNAL SERVICE FUNDS

Warehouse Fund The Warehouse Fund was established to finance and account for the

> purchase and warehousing of equipment, materials and supplies required by other funds. Amounts expended by this fund are restored when the goods are drawn from inventory or by means of an operating subsidy from

the General Fund.

Fleet Fund The Fleet Fund was established to account for city-wide costs related to

> vehicle purchases and fleet services. All departments using the fleet pay a fleet lease charge which is based on the actual usage of the department.

The Self Insurance Fund was established to account for the cost of fire, Self Insurance Fund

casualty and liability insurance coverage for the City and to pay small claims

court judgments against the City on a self-insured basis.

Employee Benefit Fund The Employee Benefit Fund was established to provide health insurance

coverage for municipal employees, as well as to account for the cost of long-term disability and life insurance benefits provided to the City's

employees.

Workers' Compensation

Insurance Fund

The Workers' Compensation Insurance Fund was established by City Council resolution to accumulate and expend funds for Workers Compensation Insurance premiums and to accumulate dividends received

on such premiums.

Unemployment

Insurance

The Unemployment Insurance Fund was established to accumulate and **Fund** expend funds for unemployment benefits paid by the State of Colorado.

DOWNTOWN DEVELOPMENT AUTHORITY COMPONENT UNIT

Downtown Development Authority General Fund

The operations of the Downtown Development Authority are accounted for in this fund. A tax levy finances the operations of the fund.

Downtown Development Building Permit

Fund

This fund is used to account for the revenues generated from building permits issued for construction in the area of the Downtown Development Authority. The funds are transferred from the individual funds initially receiving the permit revenues.

Tevel

This fund is used to account for the proceeds of CDBG grants to the DDA for improvement loans.

Downtown Development Marketing Fund

Downtown Development CDBG Grant Fund

This fund is used to account for the proceeds of an advance initiated in 2007 for specific marketing

efforts.

Downtown Development Authority Debt

Service Fund

Long term debt of the Downtown Development Authority is paid with monies accumulated in this

fund

Downtown Development Authority Construction Capital Projects Fund

This fund is used to account for the capital improvements to the Downtown area.

Downtown Development Façade Improvement Fund This fund was established in 2008 for the purpose of expending the proceeds of a \$300,000 loan from the City Fleet Fund for the purpose of downtown façade

improvement grants.

Downtown Development Art and

Entertainment Fund

This fund was established in 2011 for the purpose of accounting for arts and entertainment activities.

Year Ended December 31, 2019

NOTES TO THE SCHEDULE

^{1.} Taxes are due January 1st, half of which become delinquent on March 1st and half on June 15th. Interest on delinquent first half is 1% for each month or fraction thereof. Interest on delinquent second half tax is 8% per annum on the total amount delinquent. Counties retain 1% for tax collection effort.

^{2.} Under Colorado law, the DDA has the ability to use tax increment financing. All taxes levied on the increased valuation of the property within the DDA area over the 1983 base valuation are distributed to the Authority.

NOTES TO PLEDGED REVENUE BOND/LOAN COVERAGE on previous pages

- (a) Gross resources include operating revenues, miscellaneous revenue and interest income. Also included are annexation fees, plant investment fees, system development fees, developer participation, and cash received in lieu of water which are classified as capital contributions under generally accepted accounting principles.
- (b) Expenses include all operating expenses except depreciation. Excludes operating transfers to other funds. Excludes franchise fees in Electric & Broadband as the obligation to pay franchise fees is subordinate to debt service on the bonds.
- (c) Gross resources in column (2) minus expenses in column (3).
- (d) Open Space Sales and Use Tax Revenue Bonds were partially refunded in 2010.
- (e) Interest restated to eliminate capitalization as previously reported.
- (f) Correction to tie the maximum annual debt service for the Series 2010 Open Space Refunding Bonds to the Official Statement and the Continuing Disclosure Tables

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Year Ended December 31, 2019

NOTE 1: BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the City of Longmont under programs of the federal government for the year ended December 31, 2019. The information in this Schedule is presented in accordance with the requirements of 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the City.

NOTE 2: BASIS OF ACCOUNTING

The City's summary of significant accounting policies is presented in Note 2 to the City's basic financial statements for the year ended December 31, 2019. Governmental fund and proprietary funds account for the City's federal grant activity. Expenditures reported on the Schedule are recognized on either the accrual basis of accounting or the modified accrual basis of accounting, depending on the basis of accounting used by the respective fund for which the activity is reported. Such expenditures are recognized following Uniform Guidance, Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Therefore, some amounts presented in the Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements or reports to federal agencies.

NOTE 3: INDIRECT COST RATE

The City does not elect an indirect cost rate for the periods ended December 31, 2019.

NOTE 4: PROGRAM INCOME

Program income for the year ended December 31, 2019 is as follows:

14.239	HOME Consortium	\$ 42,590
14.239	Home State	17,123
14.218	CDBG	402,040
		\$ 461,753

NOTE 5: LOANS AND LOAN GUARANTEES

CDBG Loans Receivable Balances outstanding at December 31, 2019:

CDBG- Entitlement Grant Loans Receivable	\$ 1,080,513
CDBG- Disaster Recovery Loans Receivable	1,020,126

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Independent Auditor's Report

To Management and the Honorable Mayor and Members of the City Council City of Longmont, Colorado

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Longmont, Colorado (the "City") as of and for the year ended December 31, 2019 and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated May 29, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as Findings 2019-001 and 2019-002 that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management and the Honorable Mayor and Members of the City Council City of Longmont, Colorado

The City's Responses to the Findings

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on them.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

Independent Auditor's Report

To the Honorable Mayor and Members of the City Council City of Longmont, Colorado

Report on Compliance for Each Major Federal Program

We have audited City of Longmont, Colorado's (the "City") compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2019. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of the major federal programs for the year ended December 31, 2019.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

To the Honorable Mayor and Members of the City Council City of Longmont, Colorado

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Year Ended December 31, 2019

Section II - Financial Statement Findings

2019 - 001

Finding Type - Material weakness

Condition: Year-end journal entries were required during the audit to ensure the financial statement presentation was in conformity with generally accepted accounting principles.

Criteria: The City should have a process in place to ensure proper financial reporting, including proper recording of all year-end journal entries, in accordance with generally accepted accounting principles prior to the commencement of the audit.

Context: The adjusting journal entries included adjustments required for the proper presentation of grants receivable, grants revenue, deferred inflows of resources, long-term debt, and interest expense.

Effect: Auditor identified journal entries were made to ensure the City's Comprehensive Annual Financial Report was presented in accordance with generally accepted accounting principles.

Cause: The City did not have a procedure in place to record all journal entries as part of the annual financial closing process.

Recommendation: We recommend the City implement procedures to ensure that all appropriate journal entries are made and reviewed prior to the commencement of the audit.

Views of responsible officials and planned corrective actions: The City understands the importance of proper recording of yearend entries, and will put more procedures in place for better review of all entries in future years.

2019 - 002

Finding Type - Material weakness

Condition: The City previously presented the Other Postemployment Benefits (OPEB) Fund as an agency fund. A prior period adjustment was required to ensure the financial statement presentation was in conformity with Governmental Accounting Standards Board Statement No. 74.

Criteria: All funds of the City should be classified in the Comprehensive Annual Financial Report according to the applicable guidance issued by the Governmental Accounting Standards Board.

Context: The City had presented the OPEB Fund as an agency fund. The OPEB Fund should not have been presented as an agency fund in accordance with Governmental Accounting Standards Board Statement No. 74, as it was not being used to hold OPEB assets for other entities. Instead, the balances and activities in the OPEB Fund should be reported as balances and activities of the City as the assets were not held in trust as defined in Statement No. 74.

Effect: The OPEB Fund beginning net position was reduced by \$3,474,680 and the Employee Benefits Fund (internal service fund) beginning net position was increased by \$3,474,680. Also, the OPEB Fund is no longer presented as an agency fund in the City's Comprehensive Annual Financial Report.

Cause: The City implemented Governmental Accounting Standards Board Statement No. 74 in a prior year, but a particular section of the standard was not followed by the City.

Recommendation: We recommend that the City implement procedures to ensure that all fund classifications in the Comprehensive Annual Financial Report are in accordance with generally accepted accounting principles.

Views of responsible officials and planned corrective actions: The OPEB fund has been reported as an agency fund since it's inception. Although the City has been questioning the validity of the fund, previous auditors and consultants did not advise us of the reporting error. In 2019, the City hired new auditors and a new OPEB actuary, and were advised by both that the OPEB fund is not a true trust fund, and therefore needed to be closed out. The City will implement procedures to ensure funds are classified properly in the future.

CORRECTIVE ACTION PLAN

Year Ended December 31, 2019

City of Longmont respectfully submits the following corrective action plan for the year ended December 31, 2019.

Audit period: January 1, 2019 - December 31, 2019

The findings from the schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule.

FINDINGS—FINANCIAL STATEMENT AUDIT

Finding Number: 2019-001

Condition: Year-end journal entries were required during the audit to ensure the financial statement presentation was in conformity with generally accepted accounting principles

Planned Corrective Action: The City understands the importance of proper recording of year-end entries, and will put more procedures in place for better review of all entries in future years.

Contact person responsible for corrective action: DeeAnn Hanson, Accounting Manager

Anticipated Completion Date: May 29, 2020

Finding Number: 2019-002

Condition: The City previously presented the Other Postemployment Benefits (OPEB) Fund as an agency fund. A prior period adjustment was required to ensure the financial statement presentation was in conformity with Governmental Accounting Standards Board Statement No. 74.

Planned Corrective Action: The OPEB fund has been reported as an agency fund since it's inception. Although the City has been questioning the validity of the fund, previous auditors and consultants did not advise us of the reporting error. In 2019, the City hired new auditors and a new OPEB actuary, and were advised by both that the OPEB fund is not a true trust fund, and therefore needed to be closed out. The City will implement procedures to ensure funds are classified properly in the future.

Contact person responsible for corrective action: DeeAnn Hanson, Accounting Manager

Anticipated Completion Date: May 29, 2020

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Year Ended December 31, 2019

Prior Year Finding Number: 2018-001

Fiscal Year in Which the Finding Initially Occurred: 2018

Federal Program, CFDA Number and Name: N/A

Original Finding Description: The City had material adjustments posted to their fiscal year 2018 balances. These adjustments included a prior period adjustment related to capital assets as well as a material audit entry to record contributed water rights within the Water Fund.

Status/Partial Corrective Action (as applicable): Fully corrected

Prior Year Finding Number: 2018-002

Fiscal Year in Which the Finding Initially Occurred: 2018

Federal Program, CFDA Number and Name: 14.239, Home Consortium Program

Original Finding Description: The City per-unit investment of HOME funds exceeded the Federal Housing Administration (FHA)

mortgage limits for the Fall River Agreement.

Status/Partial Corrective Action (as applicable): Fully corrected
