

# IT'S EASY TO BE SUSTAINABLE!

## WATERWISE YOUR HOME

Programs, seminars, tips and rebates available to Longmont residents

### CONSERVATION TIPS

- Install high-efficiency showerheads and sink aerators
- Fix leaky faucets and toilets
- Water your lawn using two shorter cycles between 6 p.m. and 10 a.m.
- Run full loads in the dishwasher and air dry instead of washing dishes by hand  
**No dishwasher?** Use tubs or fill the sink for hand washing
- Cut your grass longer in the summer at 3" or 3.5"
- Sweep your driveways and sidewalks rather than hosing them off – but please not down the storm drain
