**Additional Information on fee & waivers:**

**Downtown Development Authority fees/Developer Incentive Program (DIP):** All City fees collected on projects located within the Downtown Development Authority (DDA) are given to the DDA to be used for public improvements in downtown Longmont. The DIP grant program, administered by the DDA, enables an owner of small business to receive up to a 50% grant for the purpose of installing required public improvements.

**Economic Development fee waivers:** New and expanding industrial developments to receive up to a 30% waiver of most fees normally collected at the time of receiving a building permit. If special circumstances exist, 100% of building permit fees can be waived by the City Council. The only fees not eligible to be waived are those necessary to retire debt for capital improvements

**Façade Improvement Program-**This program, administered by the DDA is designed to encourage desired larger scale catalyst redevelopment projects in the downtown area through the use of tax increment investments. Applications are evaluated by the DDA Board using an evaluation scoring system and funding of eligible improvements will be based on a project's score. Funding is available to property and business owners through this program for eligible building façade and public improvements. The City of Longmont provides staff assistance to the LDDA to administer the FIP

**Affordable Housing:** Persons providing affordable housing units are eligible to receive a minimum 50% development fee/building permit reduction provided the unit is sold for an affordable price to households whose incomes are at or below 80% of the current median income, by family size, as determined by the U.S. Department of Housing and Urban Development (HUD) in Section 8, income limits. These units must be kept affordable for a period of at least 10 years.
