

CITY OF  
**Longmont**

Engineering and  
Transportation

2020-2024  
ANNUAL ROADWAY  
CRASH REPORT

## **INTRODUCTION**

The City of Longmont is a community that values the safety and well-being of its residents and visitors. On April 25, 2023, the Longmont City Council unanimously committed to a vision of zero traffic fatalities and severe injuries within the city. Vision Zero is a data-driven and collaborative approach to reducing fatal and serious injury crashes. By forming a Vision Zero Task Force and developing a Vision Zero Action Plan the city aims to implement effective policies and a diverse set of tools for enforcement, education, and safer infrastructure. The City of Longmont believes that no one should fear the possibility of death or suffering serious injuries while traveling on its transportation system no matter which mode of transportation residents utilize.

## ***CRASH INFORMATION***

City engineering staff works with Public Safety to access crash data, but not all motor vehicle incidents are reported to the police. In the state of Colorado, a “Yes” answer to any of the following questions is considered grounds for the completion of a DR3447 crash report form:

- Was anybody injured or killed because of the crash?
- Did any of the drivers not have insurance?
- Did any of the drivers specifically request that a report be completed?
- Did any of the vehicles involved incur \$1,000 or more in damage to all involved parties (including any lost, damaged, or spilled loads) as a result of the crash?
- Were alcohol or drugs (including marijuana) suspected of being contributing factors to the crash?

DR3447 forms are typically not completed in the following circumstances:

- Crashes or damage resulting from natural disasters
- Crashes resulting from criminal actions or intentional maneuvers by law enforcement officers
- Suicide attempts
- Minor damage caused by road debris
- Crashes taking place entirely on private property

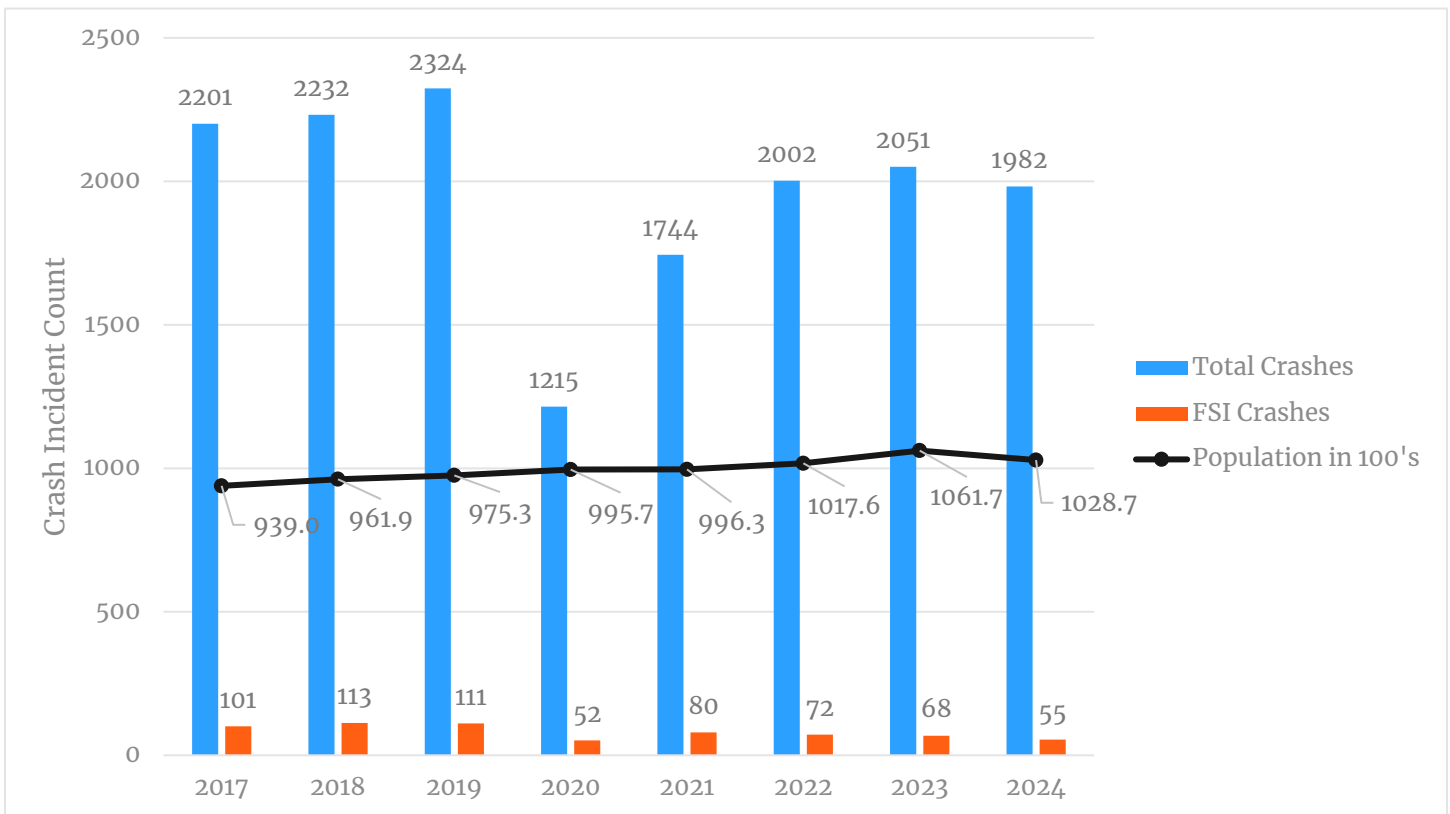

Individuals involved in crashes are classified with one of five different severity codes. Multiple people can be injured in a crash, but the overall report or incident will be described with the highest level of injury applicable. The Investigating Officer’s Crash Reporting Manual for the State of Colorado defines injury severity levels as follows:

- No Apparent Injury
  - No apparent injury is a situation where there is no reason to believe that the person received any bodily harm from the motor vehicle crash. There is no physical evidence of injury and the person does not report any change in normal function...If a party is transported [to the hospital] and is subsequently examined and found to have no injuries, the injury severity for that party would be classified as No Injury.
- Possible Injury
  - A possible injury is any injury reported or claimed which is not a fatal, suspected serious or suspected minor injury. Examples include momentary loss of consciousness, claim of injury, limping, or complaint of pain or nausea. Possible injuries are those which are reported by the person or are indicated by his/her behavior, but no wounds or injuries are readily evident...If a party is transported [to the hospital] and is subsequently examined and found to have no injuries, the injury severity for that party would be classified as Possible Injury.
- Suspected Minor Injury
  - A minor injury is any injury that is evident at the scene of the crash, other than fatal or serious injuries. Examples include lump on the head, abrasions, bruises, [and] minor lacerations (cuts on the skin surface with minimal bleeding and no exposure of deeper tissue/muscle).
- Suspected Serious Injury
  - A suspected serious injury is any injury other than fatal which presents one or more of the following symptoms:
    - Severe laceration resulting in exposure of underlying tissues/muscle/organs or resulting in significant loss of blood.
    - Broken or distorted extremity (arm or leg).
    - Crash injuries. [Part of the body is pinned or trapped. Victim cannot escape.]
    - Suspected skull, chest or abdominal injury other than bruises or minor lacerations.
    - Significant burns.
    - Unconsciousness when taken from the crash scene.
    - Paralysis.
- Fatal Injury
  - A fatal injury is any injury that results in death within 30 days after the crash in which the injury occurred.

## SECTION 1 – YEARLY TRENDS

Chart 1.0 displays the total of number of crashes per year (including records from the Longmont Police Department and Colorado State Patrol) between 2017 and 2024. The term “FSI” stands for “Fatal and Serious Injury”.

**Chart 1.0 – Crash Incidents and Population by Year**

## SECTION 2 – FATALITIES AND INJURIES BY AGE

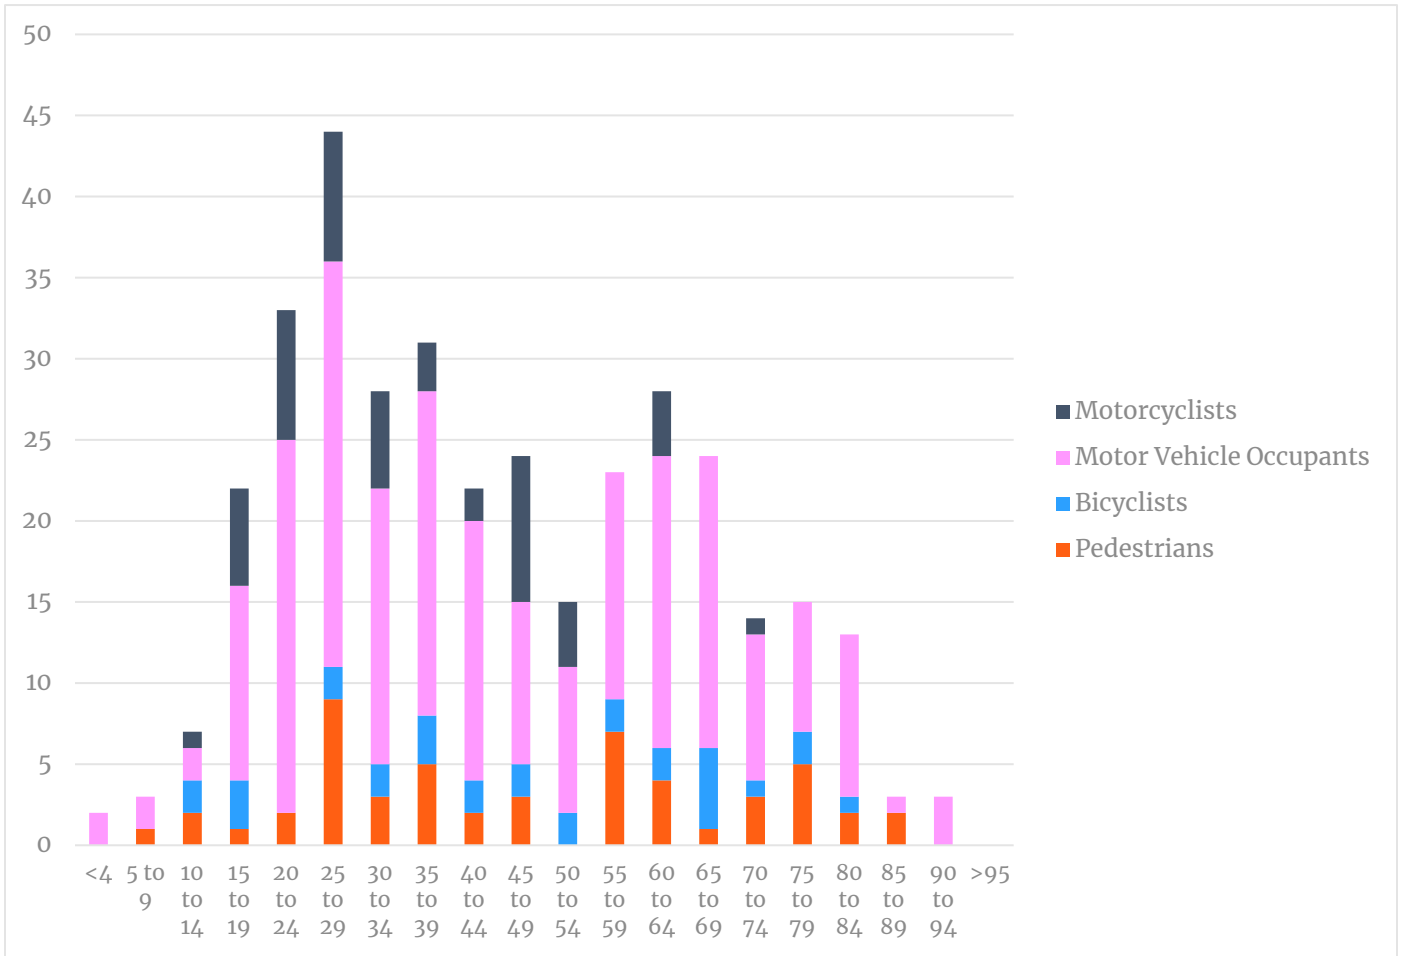

Table 2.0 lists all persons seriously injured or killed on Longmont roadways between 2020 and 2024 by age. Table 2.0 is not comprehensive as age, sex, and other detailed demographic information is not available for all persons involved in a crash. Chart 2.1 displays the data from Table 2.0 in a graphical format.

Overall, there were two (2) bicyclists and thirty-one (31) motor vehicle occupants that could not be identified with full demographic detail.

## SECTION 4 – FATAL CRASH COMPARISON WITH OTHER CITIES

All the data in Table 4.0 was taken from publicly available CDOT information. Please note that CDOT data does not always perfectly align with local data due to differences in where and how state highways are defined. The City of Longmont ranks in the middle of other Front Range cities and towns when comparing crash rates by population.

The motorcycle impacted the south curb of the intersection of Collyer St and 2nd Ave. As the motorcycle struck the curb, the driver struck the curb with his head. The driver was pronounced dead on scene. The passenger on the motorcycle sustained serious injuries.

NO.	Date	Time	Reporting Agency	Location	Description
22	Sunday, 12/18/2022	16:03	Longmont Police Department	Pike Rd & Corporate Center Cir	Vehicle 1 (an SUV driven by a 22-year-old female with a 1-year-old male passenger) was traveling westbound on Pike Rd approaching Corporate Center Cir. Vehicle 2 (an SUV driven by 30-year-old male) was stopped for traffic on westbound Pike Rd in the left turn lane to turn southbound onto Corporate Center Cir. Vehicle 3 (an SUV driven by a 48-year-old male) was traveling eastbound on Pike Rd approaching Corporate Center Cir. Vehicle 1 crossed over into the left turn lane and collided with the rear passenger side of Vehicle 2. Vehicle 1 and Vehicle 2 then rotated counter clockwise to the west. Vehicle 1 slid to the west and came to a rest on the northwest corner of the intersection. Vehicle 2 continued to spin and entered the eastbound lane of Pike Rd where it was rear-ended a second time by Vehicle 3. After the second collision, Vehicle 2 traveled in a southeasterly direction and collided with the east curb of Corporate Center Cir. After the collision with the curb, the vehicle traveled westbound and came to a rest on the grass on the west side of Corporate Center Cir. Vehicle 3 came to a rest on the south side of Pike Rd east of Corporate Center Cir. The driver of Vehicle 2 was transported to the hospital where he later died as a result of injuries sustained in the crash. The driver of Vehicle 1 was later charged with Vehicular Homicide and DUI.
23	Sunday, 2/5/2023	16:15	Longmont Police Department	Francis St, 324 feet north of 12 <sup>th</sup> Ave	Vehicle 1 (a motorcycle ridden by a 48-year-old male) was traveling northbound on Francis St between 12 <sup>th</sup> Ave and Mountain View Ave at an approximate speed of 35 miles per hour. The rear tire of the motorcycle was in poor condition, which caused the rider to lose control of the vehicle. The rider collided with the curb and was ejected from the motorcycle. The rider of Vehicle 1 later died as a result of injuries sustained in the crash.
24	Tuesday, 4/4/2023	07:33	Longmont Police Department	Hover St, 132 feet north of Nelson Rd	Vehicle 1 (a pick-up truck driven by a 59-year-old male) was traveling northbound on Hover St north of Nelson Rd at an approximate speed of 50 miles per hour. Vehicle 1 ran off the right side of the road and collided with a sign post and a tree. The driver of Vehicle 1 died shortly after the collision. Alcohol impairment was a suspected contributing factor in the crash. Roadway conditions were also listed as slushy.

NO.	Date	Time	Reporting Agency	Location	Description
25	Saturday, 6/24/2023	10:45	Longmont Police Department	S. Bowen St, 118 feet north of Ken Pratt Blvd	Pedestrian 2 (a 63-year-old female) was walking westbound across S. Bowen St approximately 118 feet north of the traffic signal at Ken Pratt Blvd. Vehicle 1 (an SUV driven by a 46-year-old male) was stopped facing southbound at the traffic signal in the through/left turn lane. The driver of Vehicle 1 reversed northward at an approximate speed of 25 miles per hour with the stated intent to move into the right turn lane. Vehicle 1 struck Pedestrian 2 in the middle of the roadway on S. Bowen St. Pedestrian 2 sustained serious injuries at the scene and was transported to the hospital. Pedestrian 2 later died as a result of her injuries. Alcohol, marijuana, and other drug impairments were suspected as contributing factors in the crash on the part of the driver. The driver of Vehicle 1 was also cited for Vehicular Homicide.
26	Tuesday, 12/5/2023	07:20	Longmont Police Department	County Line Rd & Zlaten Dr/Great Western Dr	Vehicle 1 (a passenger car driven by a 26-year-old male) stopped on Zlaten Dr in the left turn lane at County Line Rd. Vehicle 2 (a large truck-tractor driven by a 33-year-old male) was driving northbound on County Line Rd at an approximate speed of 50 miles per hour. Vehicle 1 drove into the intersection to make a left turn onto southbound County Line Rd and was struck by Vehicle 2. After colliding with Vehicle 1, Vehicle 2 continued northeast into the southbound lanes of County Line Rd before leaving the roadway and rolling over. The driver of Vehicle 1 was pronounced dead at the scene. The driver of Vehicle 2 was able to extricate himself from the vehicle and suffered no injuries.
27	Friday, 2/9/2024	16:19	Longmont Police Department	11th Ave & Collyer St	Vehicle 1 (an SUV driven by an 84-year-old male) was heading westbound on 11th Ave approaching Collyer St at an estimated speed of 38 miles per hour. Vehicle 2 (a passenger car driven by a 17-year-old male) was heading northbound on Collyer St at an estimated speed of 25 miles per hour. Vehicle 1 did not stop at the posted stop sign and collided with Vehicle 2 in the intersection. Both vehicles spun and came to a stop on the northwest corner of the intersection. The driver of Vehicle 1 died the following day from injuries sustained in the crash.

NO.	Date	Time	Reporting Agency	Location	Description
