

# Memo

**To:** Neighborhood Group Leaders

**From:** Neighborhood Programs Team

**Date:** March 13, 2026

**Re:** March 19 NGLA Meeting: Sustainability and Neighborhood Learning Tools

---

Did you know the City of Longmont has multiple sustainability tools to help you learn about your neighborhood? We look forward to sharing these tools with you at our March Neighborhood Group Leaders Association (NGLA) meeting. As a reminder, the meeting will take place at the Longmont Civic Center:

- **Date:** Thursday, March 19
- **Time:** 6:30 to 8:30 pm
- **Location:** Longmont Civic Center, Council Chambers (350 Kimbark Street)

Francie Kirkjaffe from the City of Longmont's Office of Sustainability will give a presentation about her team's work and how it connects to neighborhoods across the city. Francie will share simple tools that help you learn more about your neighborhood. These tools include the Longmont Indicators, the Neighborhood Sustainability Index, and the Climate Risk Map, among others.

After the presentation, we will open the conversation to neighborhoods. We invite you to share ideas about how neighborhoods can help the City of Longmont reach its sustainability goals. Tell us about projects your neighborhood has done in the past and practices that are already working well. This is a chance for neighborhoods to learn from one another and talk about how we can support each other at the neighborhood network level.

Also, did you know that March 20 is Mr. Rogers Day? To celebrate kindness, we invite you to wear a sweater or cardigan, just like Mister Rogers wore. We will have a silly "cardigan contest" to build community and share a few laughs. There are no prizes—just smiles! We also invite everyone to do a small act of kindness in your neighborhood this week and share it with one another during our meeting.
